Knowledge Matters Virtual Business Answers:

E-Business and Virtual Enterprises Luis M. Camarinha-Matos, Hamideh Afsarmanesh, Ricardo J. Rabelo, 2013-06-29 The fast progress in computer networks and their wide availability complemented with on one hand the explosion of the mobile computing and on the other hand the trends in the direction of ubiquitous computing act as powerful enablers for new forms of highly dynamic collaborative organizations and emergence of new business practices The first efforts in virtual enterprises VE were strongly constrained by the need to design and develop horizontal infrastructures aimed at supporting the basic collaboration needs of consortia of enterprises Even pilot projects that were focused on specific business domains were forced to first develop some basic infrastructures before being able to develop their specific business models Nowadays although there is still a need to consolidate and standardize the horizontal infrastructures the focus is more and more directed to the development of new vertical business models and the corresponding support tools At the same time in the earlier R D projects the attention was almost exclusively devoted to the operation phase of the VE life cycle while now there are more activities addressing the creation phase developing mechanisms to support the rapid formation of new virtual organizations for new business opportunities In order to complete the life cycle there is a need to also invest on support for VE dissolution

Knowledge and Discourse Matters Lesley Crane, 2015-11-02 This book provides a practical approach to harnessing knowledge in organizations Its focus is on knowledge sharing tacit knowing and a view of knowledge as an accomplishment in social interaction The aim of this book is to explore and show how the phenomena of trust risk and identity as contexts constructed by speakers themselves influence and mediate knowledge sharing in organizational encounters The research particularly reveals how tacit knowledge knowing affects the scope and directions of everyday conversation The first part of the book presents a comprehensive critical appraisal and analysis of the field of organizational knowledge management followed by an introduction to the theory and methodology of discourse analysis and a view of tacit knowing drawn from studies in implicit learning The second part reports the detailed analysis and findings of original field research investigating how participants in regular organizational meetings including a discussion forum manage the business of sharing knowledge From the perspective of the research methodology drawing on Discursive Psychology knowledge is approached as an accomplishment in social interaction with talk and text shown to be constructive functional and action oriented Presents a rigorous evidence based approach to Knowledge Management using original research Approaches discourse as the location of knowledge work and the site to which knowledge management practice should be focused Positions the actions of knowledge work in everyday talk and text thus giving practitioners a ready toolset to improve their strategies practices and understanding of knowledge within organizations Knowledge and Discourse Matters Relocating Knowledge Management s Sphere of Interest onto Language is a great reference for organizational leaders knowledge managers and human resource managers Dr Lesley Crane is an independent consultant specializing in knowledge

management and technology supported learning for adults e learning Much of her consultancy work involves providing strategic advice and research on the effective use of e content e tools and the use of new technologies in the delivery of teaching and learning Prior to working as a consultant Lesley was Managing Director of her own SME business specializing in creative e learning design and development for public and private sector organizations *Knowledge Management and E-Learning* Jay Liebowitz, Michael Frank, 2016-04-19 Examining the synergy between knowledge management KM and e learning this book considers KM practices techniques and methodologies in e learning It explains how knowledge capture retention transfer and sharing can enhance e learning Edited and written by authorities in the fields of knowledge management and e learning the text includes case studies that illustrate applications in businesses government agencies and universities in the U S Canada Mexico U K Europe and Asia **Virtual Corporate Universities** Walter R.J. Baets, Gert van der Linden, 2012-12-06 Over the past years business schools have been experimenting with distance learning and online education In many cases this new technology has not brought the anticipated results Questions raised by online education can be linked to the fundamental problem of education and teaching and more specifically to the models and philosophy of education and teaching Virtual Corporate Universities A Matrix of Knowledge and Learning for the New Digital Dawn offers a source for new thoughts about those processes in view of the use of new technologies Learning is considered as a key strategic tool for new strategies innovation and significantly improving organizational effectiveness The book blends the elements of knowledge management as well as organizational and individual learning The book is not just a treatment of technology but a fusion of a novel dynamic learner student driven learning concept the management and creation of dynamic knowledge and next generation technologies to generic business organizational and managerial processes and the development of human capital Obviously the implications of online learning go far beyond the field of business as presented in this book **Knowledge Management and Business Model Innovation** Yogesh Malhotra, 2001-01-01 We are living in interesting times characterized by increasing digitalization of business enterprises in a global interconnected knowledge economy With waning euphoria about the first wave of digital e business enterprises and a sobering dot com stock market business model innovation is being recognized as the key enabler that can unleash value creation for new digital enterprises In contrast to traditional factors of production knowledge assets and intellectual capital are expected to play a dominant role in determining both valuation and value creation capabilities of most new age enterprises Not surprisingly Knowledge Management for Business Model Innovation is anticipated to be the mantra for survival competence and success of Net enterprises as well as traditional brick and mortar enterprises faced with the challenge of transforming their business models into and beyond click and mortar companies Experimental Games Patrick Jagoda, 2020-12-07 In our unprecedentedly networked world games have come to occupy an important space in many of our everyday lives Digital games alone engage an estimated 2.5 billion people worldwide as of 2020 and other forms of gaming such as board games role playing escape

rooms and puzzles command an ever expanding audience At the same time gamification the application of game mechanics to traditionally nongame spheres such as personal health and fitness shopping habit tracking and more has imposed unprecedented levels of competition repetition and quantification on daily life Drawing from his own experience as a game designer Patrick Jagoda argues that games need not be synonymous with gamification He studies experimental games that intervene in the neoliberal project from the inside out examining a broad variety of mainstream and independent games including StarCraft Candy Crush Saga Stardew Valley Dys4ia Braid and Undertale Beyond a diagnosis of gamification Jagoda imagines ways that games can be experimental not only in the sense of problem solving but also the more nuanced notion of problem making that embraces the complexities of our digital present The result is a game changing book on the sociopolitical potential of this form of mass entertainment
