Literate Lives Amy Seely Flint, 2007-11-09

Literate Lives Teaching Reading and Writing in Elementary Classrooms invites readers to consider the complexities of the reading process in diverse settings. The text is designed to meet the challenges and needs of undergraduate and graduate teacher candidates in elementary education programs, helping them to have a better first year in the classroom experience. The text introduces teacher candidates to the notion that reading is a complex, multi-layered process that begins early in a child's life. Reading, by all accounts, is more than decoding symbols on a page. While this is one component of the reading process, it is important for teacher candidates to see a broader, more complete picture of reading. Given the role that reading plays in the elementary school curriculum, it is imperative that teachers have a well-developed understanding of the reading process and what it means to be a teacher of readers. *Literate Lives Teaching Reading and Writing in the Elementary Classroom* covers the major theories and application strategies of the reading process, as well as current debates in the field, using a unique framework that builds upon the following themes: believing that literacy is based in social, cultural, and historical contexts; assuming an inquiry stance; being problem posers and wondering why; using kidwatching (Goodman, 1985) as an assessment tool to make informed instructional decisions; recognizing and using the multiple literacies that children bring to the classroom; and lingering and reflecting on one's decisions in light of what one knows and believes. *Reading, Writing, and Talk* Mariana Souto-Manning, Jessica Martell, 2016. This book introduces a variety of inclusive strategies for teaching language and literacy in kindergarten through 2nd grade. Readers are invited into classrooms where racially, culturally, and linguistically diverse children's experiences, unique strengths, and expertise are supported and valued. Chapters focus on oral language, reading, and writing development and include diverse possibilities for culturally relevant and inclusive teaching. Featured teaching strategies foster academic success, cultural competence, and critical consciousness, leading students to read their worlds and question educational and societal inequities. Early childhood teachers will find this book invaluable as they consider effective ways to teach diverse children. The hands-on examples and strategies portrayed will help educators expand their thinking and repertoires regarding what is possible and needed in the language and literacy education curriculum. Unique in its focus on equitable, fully inclusive, and culturally relevant language and literacy teaching, this important book will help K-2 teachers re-think and re-conceptualize their own practices. Offers us a great opportunity to explore pedagogical strategies that are diverse and inclusive. From the Foreword by Gloria Ladson Billings, University of Wisconsin-Madison. Readers will discover a treasure of teacher and student collaborative experiences to engage diverse learners. Yetta and Ken Goodman, University of Arizona. The authors offer rich vignettes and pragmatic guidance for learning about responding to and respectfully building community among children. We readers are in their debt. Anne Haas Dyson, University of Illinois. A beautifully written book filled with powerful examples. I heartily recommend it for all teachers lucky enough to work on a daily basis with our brilliant early elementary students. Ernest Morrell, Teachers College, Columbia
