4

Use stories

When you tell a good story, you give life to a vision, goal, or objective.

5

Journal of the National Cancer Institute ,1990 Consolidated Guideline on Sexual and Reproductive Health

and Rights of Women Living with HIV World Health Organization, 2017-02-20 The starting point for this guideline is the point at which a woman has learnt that she is living with HIV and it therefore covers key issues for providing comprehensive sexual and reproductive health and rights related services and support for women living with HIV. As women living with HIV face unique challenges and human rights violations related to their sexuality and reproduction within their families and communities as well as from the health care institutions where they seek care, particular emphasis is placed on the creation of an enabling environment to support more effective health interventions and better health outcomes. This guideline is meant to help countries to more effectively and efficiently plan, develop and monitor programmes and services that promote gender equality and human rights and hence are more acceptable and appropriate for women living with HIV, taking into account the national and local epidemiological context. It discusses implementation issues that health interventions and service delivery must address to achieve gender equality and support human rights.
