The volume brings together national and international specialists in the areas of early childhood and play leadership as well as playground manufacturers, parks and recreation directors, architects and landscape architects, child care providers, child life specialists, movement and physical educators, and parent advocates of play. This collection is divided into five parts. Part One addresses topics of special interest to parents and caregivers concerning definitions and the importance of play. Part Two offers information concerning curriculum development, programming, and several academic teaching issues. Topics reflecting the child's props, playthings, and play environments are blended together in Part Three. Part Four offers in-depth chapters linking current research connecting brain and learning with play. Part Five contains an overview of the importance and right of all children to play.
