*Reference and Information Services* Kay Ann Cassell, Uma Hiremath, 2013 Search skills of today bear little resemblance to searches through print publications Reference service has become much more complex than in the past and is in a constant state of flux Learning the skill sets of a worthy reference librarian can be challenging unending rewarding and yes fun

*Deaf Subjects* Brenda Jo Brueggemann, 2009-05-01 In this probing exploration of what it means to be deaf Brenda Brueggemann goes beyond any simple notion of identity politics to explore the very nature of identity itself Looking at a variety of cultural texts she brings her fascination with borders and between places to expose and enrich our understanding of how deafness embodies itself in the world in the visual and in language Taking on the creation of the modern deaf subject Brueggemann ranges from the intersections of gender and deafness in the work of photographers Mary and Frances Allen at the turn of the last century to the state of the field of Deaf Studies at the beginning of our new century She explores the power and potential of American Sign Language wedged as she sees it between letter bound language and visual ways of learning and argues for a rhetorical approach and digital future for ASL literature The narration of deaf lives through writing becomes a pivot around which to

imagine how digital media and documentary can be used to convey deaf life stories Finally she expands our notion of diversity within the deaf identity itself takes on the complex relationship between deaf and hearing people and offers compelling illustrations of the intertwined and sometimes knotted nature of individual and collective identities within Deaf culture

*The SAGE Deaf Studies Encyclopedia* Genie Gertz,Patrick Boudreault,2016-01-05 The time has come for a new in depth encyclopedic collection of articles defining the current state of Deaf Studies at an international level and using the critical and intersectional lens encompassing the field The emergence of Deaf Studies programs at colleges and universities and the broadened knowledge of social sciences including but not limited to Deaf History Deaf Culture Signed Languages Deaf Bilingual Education Deaf Art and more have served to expand the activities of research teaching analysis and curriculum development The field has experienced a major shift due to increasing awareness of Deaf Studies research since the mid 1960s The field has been further influenced by the Deaf community s movement resistance activism and politics worldwide as well as the impact of technological advances such as in communications with cell phones computers and other devices A major goal of this new encyclopedia is to shift focus away from the Medical Pathological Model that would view Deaf individuals as needing to be fixed in order to correct hearing and speaking deficiencies for the sole purpose of assimilating into mainstream society By contrast The Deaf Studies Encyclopedia seeks to carve out a new and critical perspective on Deaf Studies with the focus that the Deaf are not a people with a disability to be treated and cured medically but rather are members of a distinct cultural group with a distinct and vibrant community and way of being

**Advances in the Sign Language Development of Deaf Children** Brenda Schick,Marc Marschark,Patricia Elizabeth Spencer,2005-09-02 The use of sign language has a long history Indeed humans first languages may have been expressed through sign Sign languages have been found around the world even in communities without

access to formal education In addition to serving as a primary means of communication for Deaf communities sign languages have become one of hearing students most popular choices for second language study Sign languages are now accepted as complex and complete languages that are the linguistic equals of spoken languages Sign language research is a relatively young field having begun fewer than 50 years ago Since then interest in the field has blossomed and research has become much more rigorous as demand for empirically verifiable results have increased In the same way that cross linguistic research has led to a better understanding of how language affects development cross modal research has led to a better understanding of how language is acquired It has also provided valuable evidence on the cognitive and social development of both deaf and hearing children excellent theoretical insights into how the human brain acquires and structures sign and spoken languages and important information on how to promote the development of deaf children This volume brings together the leading scholars on the acquisition and development of sign languages to present the latest theory and research on these topics They address theoretical as well as applied questions and provide cogent summaries of what is known about early gestural development interactive processes adapted to visual communication linguistic structures modality effects and semantic syntactic and pragmatic development in sign Along with its companion volume *Advances in the Spoken Language Development of Deaf and Hard of Hearing Children* this book will provide a deep and broad picture about what is known about deaf children s language development in a variety of situations and contexts From this base of information progress in research and its application will accelerate and barriers to deaf children s full participation in the world around them will continue to be overcome

Constructions in Contact 2 Hans C. Boas, Steffen Höder, 2021-06-15 The last few years have seen a steadily increasing interest in constructional approaches to language contact This volume builds on previous constructionist work in particular *Diasystematic Construction Grammar DCxG* and the volume *Constructions in Contact* 2018 and extends its methodology and insights in three major ways First it presents new constructional research on a wide range of language contact scenarios including Afrikaans American Sign Language English French Malayalam Norwegian Spanish Welsh as well as contact scenarios that involve typologically different languages Second it also addresses other types of scenarios that do not fall into the classic language contact category such as multilingual practices and language acquisition as emerging multilingualism Third it aims to integrate constructionist views on language contact and multilingualism with other approaches that focus on structural social and cognitive aspects The volume demonstrates that Construction Grammar is a framework particularly well suited for analyzing a wide variety of language contact phenomena from a usage based perspective
