Nociceptive System Istvan Nagy,Peter Santha,Jiri Palecek,2022-01-11 Impacts that threaten or indeed compromise the integrity of tissues trigger the development of a defence response which through the activity of the nociceptive system includes pain If the noxious impact does not induce tissue damage the pain called nociceptive pain ceases within seconds after the impact is withdrawn In contrast if tissue damage does occur a pain experience that usually persists until the injury is resolved and includes two major pathological sensory experiences hypersensitivity to heat stimuli i e heat hyperalgesia and or hypersensitivity to mechanical stimuli i e mechanical allodynia develop The cellular and molecular mechanisms underlying the development of nociceptive pain are fairly well understood Our understanding of the development of pain associated with tissue injury has also significantly improved in the last decades Hence two fundamental mechanisms interactions between the nervous and immune systems both within and without the central nervous system and sensitization that is a use dependent increase in the sensitivity and activity of neurons involved in nociceptive processing have been identified being pivotal for the development of tissue injury associated pain However important details of the cellular and molecular mechanisms which account for the development of the pathological sensory experiences and those experiences becoming persistent still await elucidation *Summaries of Projects Completed in Fiscal Year ...* , *Summaries of Projects Completed*

Metallurgy and Corrosion Control in Oil and Gas Production Robert Heidersbach,2018-09-17 Details the proper methods to assess prevent and reduce corrosion in the oil industry using today s most advanced technologies This book discusses upstream operations with an emphasis on production and pipelines which are closely tied to upstream operations It also examines protective coatings alloy selection chemical treatments and cathodic protection the main means of corrosion control The strength and hardness levels of metals is also discussed as this affects the resistance of metals to hydrogen embrittlement a major concern for high strength steels and some other alloys It is intended for use by personnel with limited backgrounds in chemistry metallurgy and corrosion and will give them a general understanding of how and why corrosion

occurs and the practical approaches to how the effects of corrosion can be mitigated Metallurgy and Corrosion Control in Oil and Gas Production Second Edition updates the original chapters while including a new case studies chapter Beginning with an introduction to oilfield metallurgy and corrosion control the book provides in depth coverage of the field with chapters on chemistry of corrosion corrosive environments materials forms of corrosion corrosion control inspection monitoring and testing and oilfield equipment Covers all aspects of upstream oil and gas production from downhole drilling to pipelines and tanker terminal operations Offers an introduction to corrosion for entry level corrosion control specialists Contains detailed photographs to illustrate descriptions in the text Metallurgy and Corrosion Control in Oil and Gas Production Second Edition is an excellent book for engineers and related professionals in the oil and gas production industries It will also be an asset to the entry level corrosion control professional who may have a theoretical background in metallurgy chemistry or a related field but who needs to understand the practical limitations of large scale industrial operations associated with oil and gas production

Ion Implantation Technology - 92 D.F. Downey, M. Farley, K.S. Jones, G. Ryding, 2012-12-02 Ion implantation technology has made a major contribution to the dramatic advances in integrated circuit technology since the early 1970 s The ever present need for accurate models in ion implanted species will become absolutely vital in the future due to shrinking feature sizes Successful wide application of ion implantation as well as exploitation of newly identified opportunities will require the development of comprehensive implant models The 141 papers including 24 invited papers in this volume address the most recent developments in this field New structures and possible approaches are described The implications for ion implantation technology as well as additional observations of needs and opportunities are discussed The volume will be of value to all those who are interested in acquiring a more complete understanding of the current developments in ion implantation processes and comprehensive implant models

High-Performance Bolting Technology for Offshore Oil and Natural Gas Operations National Academies of Sciences, Engineering, and Medicine, National Academy of Engineering, Division on Engineering and Physical Sciences, National Materials and Manufacturing Board, Committee on Connector Reliability for Offshore Oil and Natural Gas Operations, 2018-06-12 Commercially significant amounts of crude oil and natural gas lie under the continental shelf of the United States Advances in locating deposits and improvements in drilling and recovery technology have made it technically and economically feasible to extract these resources under harsh conditions But extracting these offshore petroleum resources involves the possibility however remote of oil spills with resulting damage to the ocean and the coastline ecosystems and risks to life and limb of those performing the extraction The environmental consequences of an oil spill can be more severe underwater than on land because sea currents can quickly disperse the oil over a large area and thus cleanup can be problematic Bolted connections are an integral feature of deep water well operations High Performance Bolting Technology for Offshore Oil and Natural Gas Operations summarizes strategies for improving the reliability of fasteners used in offshore oil exploration equipment as well as best practices from

other industrial sectors It focuses on critical bolting bolts studs nuts and fasteners used on critical connections
