*A Bibliographical Guide to Twenty-four Modern Anglo-Welsh Writers* John Harris, Edward John Davies, 1994. This is the most detailed guide in existence to a significant portion of the now extensive English language literature of Wales. Two dozen major writers who are generally associated with the Anglo-Welsh literary renaissance are covered here. Some like Dylan Thomas are internationally known figures who have been the subject of bibliographies; in these cases the treatment here is the most up to date and comprehensive yet published. Others less well known outside Wales are given full bibliographical treatment for the first time. The volume will therefore be indispensable to students and teachers of literature in English at all levels. The bibliography lists publications by and about each chosen writer. Primary sections record the writer's monographic output in all editions and translations as well as uncollected contributions to books, periodicals and newspapers. Secondary lists include critical and biographical studies of each writer, independent monographs, sections of books, periodical essays and academic theses. Two important sections preface the individual author bibliographies: one covering anthologies of Anglo-Welsh poetry and prose, the other a range of general critical and background studies. In all, this bibliography with close on 6,000 selectively annotated entries provides an indispensable reference guide to a developing area of literary and cultural research.

**Formative Britain** Martin Carver, 2019-01-14. Formative Britain presents an account of the peoples occupying the island of Britain between 400 and 1100 AD, whose ideas continue to set the political agenda today. Forty years of new archaeological research has laid bare a hive of diverse and disputatious communities of Picts, Scots, Welsh, Cumbrian and Cornish Britons, Northumbrians, Angles and Saxons who expressed their views of this world and the next in a thousand sites and monuments. This highly illustrated volume is the first book that attempts to describe the experience of all levels of society over the whole island using archaeology alone. The story is drawn from the clothes, faces and biology of men and women, the images that survive in their poetry, the places they lived, the work they did, the ingenious celebrations of their graves and burial grounds, their decorated stone monuments and their diverse messages. This ground-breaking account is aimed at students and archaeological researchers at all levels in the academic and commercial sectors. It will also inform relevant stakeholders and general readers alike of how the islands of Britain developed in the early medieval period. Many of the ideas forged in Britain's formative years underpin those of today as the UK seeks to find a consensus programme for its future.
