built using 50 year old technology These cars use antiquated equipment that includes drum brakes breaker points ignition
systems and 14 inch steel wheels The OEM running gear is obsolete by today s standards but all of these Mustangs can turn
into high performance street machines that can compete with late model Mustangs While certain special build and high
performance models should be preserved many common V 8 Mustangs can be transformed into high performance cars that
rival the new cars of today The Mustang can be upgraded and modified into a true driving machine by installing aftermarket
suspension steering and driveline technology Mustang expert and former Ford engineer Frank Bohanan explains how to
perform simple and important bolt on upgrades that radically increase performance He explains the rationale and process of
