Content and Foreign Language Integrated Learning Yolanda Ruiz de Zarobe, Juan Manuel Sierra, Francisco Gallardo del Puerto, 2011 This series promotes specialist language studies both in the fields of linguistic theory and applied linguistics by publishing volumes that focus on specific aspects of language use and provide valuable insights into language and communication research A cross disciplinary approach is favoured and most European languages are accepted

Politics, Poverty, and Microfinance Brian Warby, 2015-12-29 This book analyzes the effect that government institutions have on whether or not microfinance contributes to poverty alleviation in the context of Latin America It concludes that political and economic stability as well as and law order have a statistically significant impact on microfinance effectiveness The conditions that promote poverty alleviation are not entirely the same as those upon which major microfinance investors base their funding decisions The result is that much microfinance funding is going to the wrong places This means that not only is microfinance not helping the poor but under the wrong conditions it actually exacerbates poverty The author arrives at these conclusions through a mixed methods approach using both statistical analysis and case studies

Renewable Energy Integration Jahangir Hossain, Apel Mahmud, 2014-01-29 This book presents different aspects of renewable energy integration from the latest developments in renewable energy technologies to the currently growing smart grids The importance of different renewable energy sources is discussed in order to identify the advantages and challenges for each technology The rules of connecting the renewable energy sources have also been covered along with practical examples Since solar and wind energy are the most popular forms of renewable energy sources this book provides the challenges of integrating these renewable generators along with some innovative solutions As the complexity of power system operation has been raised due to the renewable energy integration this book also includes some analysis to investigate the characteristics of power systems in a smarter way This book is intended for those working in the area of renewable energy integration in distribution networks
