How Strategic Communication Shapes Value and Innovation in Society Betteke van Ruler,Iekje Smit,Øyvind Ihlen,Stefania Romenti,2017-11-03 Let s Talk Society and the society we re talking about is in transition to a green and sustainable society an inclusive society and an innovative and reflective society What is our role as communication professionals in all of this How can we foster public debate This book addresses these challenges and offers some answers

Community Participation with Schools in Developing Countries Mikiko Nishimura,2020-08-04 The Sustainable Development Goals SDGs 2016 2030 set by the United Nations in 2015 restated the importance of universal primary education for all and specifically discuss quality equity and inclusion in basic education To achieve this the role of

community has been emphasized and participation has become a buzzword in international development over the past several decades. Despite the growing attention to community participation in school management, previous literature has shown mixed results in terms of its actual practice and its impacts on quality, equity, and inclusion in education. This book deepens the contextual understanding of community in developing countries and its involvement in schools in general and its impact on quality, equity, and inclusion of school education in particular. By presenting various case studies in Asia, Africa, Latin America, and a post-conflict state in Europe, the book analyses commonalities and differences in the ways communities are involved and cast their impacts and challenges. The book contributes knowledge on the ways in which community involvement could work in developing countries, the detailed processes and factors that make community participation work in different dimensions, and remaining challenges that scholars and practitioners still need to be concerned and mindful in the field. This book will appeal to both researchers and practitioners who are concerned about the community participation approach for the SDGs.

What You Sow Is a Bare Seed Celeste Kennel-Shank, 2023-08-17 *What You Sow Is a Bare Seed* is a group biography that tells the stories of ordinary but extraordinary people who were engaged in movements for renewal in the church and justice in broader society. People such as Dora Koundakjian Johnson, an Armenian-Lebanese linguistics scholar and activist, and Doug Huron, an attorney who won a landmark US Supreme Court civil rights case. They were among those who came together as the Ecumenical Community of Christ in Washington DC, planted in the inner city in 1965 when many churches were leaving. The Community distinguished itself from the more organized church without rejecting it, as one former member says: "They believed that helping each other identify their gifts was a compelling way to shape their collective ministry beyond themselves." The Community initially intended not to own property but later bought a building and opened it up as a community center. As a final act of ministry, the Community gave its building away to a nonprofit partner when it closed in 2016, leaving a legacy that continues today.

The ^AOxford Handbook of Assessment Policy and Practice in Music Education, Volume 2 Timothy Brophy, 2019-01-02 In this two-volume Handbook, contributors from across the globe provide expert perspectives on the assessment, measurement, and evaluation of student learning in music.

Transparency in Assessment - Exploring the Influence of Explicit Assessment Criteria Anders Jönsson, Frans Prins, 2019-04-03 In many schools and higher education institutions, it has become common practice to share assessment criteria with students. Sometimes it is required for accountability purposes; at other times, criteria are used as a means to communicate expectations to students. However, the idea that explicit assessment criteria should be shared with students has been contested. On the one hand, research has shown that explicit criteria may positively affect student performance, reduce their anxiety, as well as support students' use of self-regulated learning strategies. On the other hand, there are fears that explicit criteria may have a restraining influence on students' learning, as well as limiting their autonomy and creativity. There are also indications of students becoming more performance-oriented as opposed to learning-oriented.

when being provided with explicit assessment criteria Taken together it is not fully understood under which circumstances it is productive for student learning to share explicit assessment criteria and under which circumstances it is not In particular empirical research on the proposed negative effects of sharing criteria with learners is limited and most fears voiced in the literature are based on individual experiences and anecdotal evidence In this book we therefore bring different perspectives on transparency in assessment together in order to further our understanding of how students are influenced by the use of explicit assessment criteria A deeper understanding of the influence of explicit assessment criteria on students understanding of criteria motivation and learning is equally imperative for future research and educational practice both of which need to go beyond individual opinions and convictions

Sustainable and Resilient Global Practices Torben Juul Andersen, 2024-07-19 The chapters presented here by global scholars fill the void in current knowledge of how to generate effective strategic adaptation in times of abrupt environmental changes generating important leads for forthcoming scholarship efforts for the benefit of business and society
