Higher Education

Financing in East and Southern Africa Pundy Pillay,2010 This nine country study of higher education financing in Africa includes three East African states Kenya Tanzania and Uganda five countries in southern Africa Botswana Lesotho Mozambique Namibia and South Africa and an Indian Ocean island state Mauritius Higher Education Financing in East and Southern Africa explores trends in financing policies paying particular attention to the nature and extent of public sector funding of higher education the growth of private financing including both household financing and the growth of private higher education institutions and the changing mix of financing instruments that these countries are developing in response to public sector financial constraints This unique collection of African country case studies draws attention to the remaining challenges around the financing of higher education in Africa but also identifies good practices lessons and common themes

Conservation Agriculture in Africa Saidi Mkomwa, Amir H. Kassam, 2022-01-11 Tillage agriculture has led to widespread soil and ecosystem degradation globally and more particularly in the developing regions This is especially so in Africa where traditional agricultural practices have become unsustainable due to severe exploitation of natural resources with negative impacts on the environment and food system In addition agricultural land use in Africa today faces major challenges including increased costs climate change and a need to transform to more sustainable production intensification systems Conservation Agriculture has emerged as a major alternative sustainable climate smart agriculture approach in Africa and has spread to many African countries in the past decade as more development and research including in sustainable mechanization has enabled its extension and uptake It is key to transforming Africa s agriculture and food system given its ability to restore soil health biodiversity and productivity of millions of smallholder farms as well as larger scale farms This book is aimed at all agricultural stakeholders in the public private and civil sectors in Africa engaged in supporting the transformation of conventional tillage agriculture to Conservation Agriculture The book will be of interest to researchers academics students development stakeholders public and private sector investors and policy makers as well as institutional libraries across the world

Trails in Academic and Administrative Leadership in Kenya Michieka, Ratemo

Way, 2017-05-03 Scholars especially those interested in understanding how leadership has inhibited academic freedom and hindered effectiveness of institutions of higher learning have for long been engaged by the very important manner in which governance and leadership of higher education institutions in Africa is constituted and managed The fact that there has been a dearth of work based on the experiences of those who have served as university leaders has created a major gap Questions remain on how leaders of higher education institutions are identified how they are prepared the personal predispositions that individuals bring to the exercise of such positions and their personal experiences regarding what energizes or inhibits the performance of their work Until recently presidents in most African countries served as chancellors of public universities

identification of those who served as university leaders was largely a political process. But much has changed with most countries establishing oversight bodies and the overall governance of higher education institutions divorced from the day to day political processes. *Trails in Academic and Administrative Leadership in Kenya* provides a personal account of the experiences in higher education leadership from an individual whose tenure in leadership straddled the two eras. In this book Prof Michieka provides an account of how his early education prepared him for roles in academic and institutional leadership in Kenya. The author shares his experiences on the trails he had to navigate as an academic, a vice chancellor and a chairperson of university council at a time when universities in Kenya were transiting from extreme government administrative control to a greater degree of operational autonomy. Readers will find in this work thought provoking insights on how leaders of higher education institutions in Kenya have had to balance between demands of the political system and the need to safeguard academic traditions in the everyday management of the institutions.

Natural Product Based Drug Discovery Against Human Parasites Archana Singh, Brijesh Rathi, Anita K. Verma, Indrakant K. Singh, 2023-11-27. This book comprehensively reviews current and novel treatment strategies against human parasites including protozoans and helminths using natural products. The initial chapters summarize the conventional treatment strategies and natural product based therapeutics against these parasites. It discusses biochemical tools and techniques for the discovery of natural product based drugs against human parasites. The book also covers the ingenious and innovative mechanisms to achieve drug resistance by the protozoan parasites and strategies to overcome the resistance. It entails mechanistic insight into the modulation of host immune responses to delay or inhibit parasite clearance and explores host pathogen interactions that mediate immunity against subsequent parasite challenge. In turn, the volume helps in understanding the immunobiology of the parasites and tools to identify candidate vaccine antigens and novel delivery systems against the protozoan parasites. Lastly, it explores the role of advanced methods including nanotechnology, marine bioprospecting and microorganisms derived biochemicals against the protozoan parasites. This book is useful for students and researchers of pharmacology, parasitology, zoology and other allied fields.
