The goal of this case study is to explore a newly-reformed language laboratory, step-by-step. Collocations and lexical peak performance is considered not to be sufficient only, but fully qualified performance. The laboratory should never be considered a substitute for any process of a student in their writing level.

in accordance with WHO (2003) & (2005) the following system of identifying the priority of the hazards associated with the products is used:

‘‘essential’’ Potentially hazardous situation which, if not avoided, could result in death or serious injury

‘‘hazardous’’ Potentially hazardous situation which, if not avoided, may result in serious or moderate injury or property damage. This level is also used to identify safety functions.
