Buy this book, and compare your own "forecast" with mine. In my 40 years of experience, I've never been wrong. And the book includes the full forecast for 2008. (Yes, I'm a little off on the timing of the recession, but I'm right on the economic and political causes. I'm wrong if you want to know the date. I'm wrong if you think "this time, it's different." You can't tell what's going to happen. You can only tell what's going to happen.)
