The U.S. Automobile Manufacturing Industry,1996 *Automotive News*,2006 **The Boston Consulting Group on Strategy** Carl W. Stern,Michael S. Deimler,2012-06-14 A collection of the best thinking from one of the most innovative management consulting firms in the world For more than forty years The Boston Consulting Group has been shaping strategic thinking in business The Boston Consulting Group on Strategy offers a broad and up to date selection of the firm s best ideas on strategy with fresh ideas insights and practical lessons for managers executives and entrepreneurs in every industry Here s a sampling of the provocative thinking you ll find inside You have to be the scientist of your own life and be astonished four times at what is what always has been what once was and what could be The majority of products in most companies are cash traps They are not only worthless but a perpetual drain on corporate resources Use more debt than your competition or get out of the business When information flows freely reputation more than reciprocity becomes the basis for trust As a strategic weapon time is the equivalent of money productivity quality even innovation When brands become business systems brand management becomes far too important to leave to the marketing department The winning organization of the future will look more like a collection ofjazz ensembles than a symphony orchestra Most of our organizations today derive from a model whose original purpose was to control creativity Rather than being an obstacle uncertainty is the very engine of transformation in a business a continuous source of new opportunities IP assets lack clear property lines Every bit of intellectual property you can own comes with connections to other valuable innovations **Inventory Management**

Volume 2 Pete Kornafel, 2020-10-04 Inventory Management Vol 2 updates some topics in Pete Kornafel's Inventory Management and Purchasing book published in 2004. The original book is still in print and much of it is still best practice for forecasting and purchasing inventory for hard goods distributors. This Vol 2 book includes new material on SKU level forecasting with the addition of external data, a big new section on store assortment planning, some best practice techniques for managing special situations such as multiple sources, hub spoke store networks, promotions, category management and supply chain collaboration. All the content is of my own design with what I feel is best practice in each of these areas. And this Vol 2 has some observations about the future of the automotive aftermarket in the U.S. This includes the impact of the Covid 19 pandemic in the hopefully short term and some longer term factors that will over time profoundly change the aftermarket.
