Oyeneye,2019-06-24 A study by an American University once revealed that 97 percent of the world s population have no goal and work for the 3 percent who have This is a great tragedy that 97 percent of people in all walks of life wake up each day drudge through life and go back to sleep for a lifetime without knowing why they came to earth The sad thing is that among these daydreamers are great men and women originally destined by their Maker to be movers and shakers of our planet The only reason they are wandering in the desert of life is because they have not found their true north We all know that man is created in the image and likeness of God which means that what is possible with God is possible with man When put to the test human beings have been known to perform mighty feats Scientists call it hysterical strength and there have been many reported stories of this happening where an individual exercises superhuman strength in a time of great need A famous case of this happened in 1960 Angela Carvallo s son was trapped under a car and upon waiting for help she took the rescue into her own hands and lifted the car off him allowing him to crawl out of harm s way In this insightful book Pastor MKO argues that you do not have to settle for mediocrity and anonymity You are capable of achieving the highest possible dream for
