## How To Paint Furniture Quick Easy Guide:

*How to Paint Furniture Quick and Easy Guide* Stephan Marlow, 2014-12-12 Wooden furniture pieces are painted to give them a new life. Painting process can be very simple where you will be required sometimes very little DIY skills and painting materials and tools. It's something that you can do during the weekends and give your home an explicit attractive outlook. Furniture is not a new term for most of us given that we all use them in our homes, offices, churches and other places. This name refers to a collection of objects that are movable such as sofas, stools, chairs and many others that we use for sleeping and seating. Some furniture like desks and tables are used for the purpose of holding objects at some particular heights.

**Ideas for Painting Wood Furniture**

There are wide varieties of painting techniques which you can use to transform your wood furniture. In this case you will be acting like an advanced painter. It is not essentially what we have talked about. That is much more than sanding, priming and even applying the paint, the seal. Here I will stress about making some decorative patterns on your furniture, applying some metallic paints as well as how to transform your old looking furniture to something that is great. Always understand that there are various tools which can be used to paint. They include spraying cans, foam rollers and painting brushes. Consider using the following ideas just to make sure that you have nice looking furniture.

**1 Distressing Technique**

This can be the first trick which will assist you in making the painted surface look great. It involves applying the paint on various layers which are multiple for this case. This gives the surface a distressed look. You will be required to start by adding a paint coat. This should be followed by addition of another layer of paint in the form of a coat by the use of another color of paint. You might then be required to use a steel pad or sandpaper to scrape the first layer of paint on the edges lightly. At the end of the painting task you can then add the sealant or any other protective cover on the painted surface.
