Indonesian Houses, 2022-06-20 The traditional houses and settlements of the several hundred ethnic groups of Indonesia are extremely varied and all have their own unique history Underlying this rich diversity are fundamental similarities rooted in the ancient heritage that is shared by all the peoples in the Indonesian field of study The multiplicity of ways in which this heritage is given shape in each local situation bears witness to an amazing creativity in adapting to regional circumstances and social changes Inter ethnic comparison of the architectural structures is a way to arrive at a better understanding of both the shared traditions and the diverging developments In many cases the variety of house forms will reflect successful attempts at one group's making distinct its
