Overall Objective

The overall objective of this course is to look at various topics within five major cultures of the world: Middle East, India, China, Latin America and Africa. Within the context of each culture we will focus on geography, social structure, economy, religion, philosophy, modernization, art, music, literature and government. An emphasis will be placed on the 20th Century for each of these cultures. Each culture will be a unit of approximately seven weeks.

Specific Course Objectives

- To understand the relationship between the past and present in culture.
- To better understand how the various cultures relate to their natural and social environment.
- To develop a knowledge of the vocabulary particular to each culture.
- To develop continuing interest in different cultures through the use of current events.
- To open our minds to positive aspects of cultures different than our own.
- To realize that our culture is made up of various ideas acquired from other parts of the world.
- To realize that people are different and that is just fine.

Materials

- *World Cultures A Global Mosaic* textbook

Social Studies for Secondary Schools Alan J. Singer, 2003-04-02 Social Studies for Secondary Schools Teaching to Learn Learning to Teach Second Edition integrates discussions of educational goals and the nature of history and social studies with practical ideas for organizing social studies curricula units lessons projects and activities A major theme woven throughout the text is that what we choose to teach and the way we teach reflect our broader understanding of society history and the purposes of social studies education Each chapter opens with a broad question about social studies education provides many examples of lessons including lesson ideas developed by new and experienced middle school and high school social studies teachers features a rich variety of teaching learning and classroom activities designed to provoke discussion and illustrate different approaches to teaching social studies and concludes with essays about related social studies topics Part I focuses on philosophical issues social studies goals and standards and the design of social studies curricula Part II examines and offers examples of strategies for planning units and lessons Part III explores topics such as thematic and interdisciplinary teaching a project approach to social studies as well as assesses student learning and one's own performance as a teacher and provides a guide to social studies resource materials and organizations New in the Second Edition Every chapter has been updated and includes a number of new lesson ideas The lesson ideas are designed especially to help beginning teachers address learning standards work in inclusive settings and promote literacy and the use of technology in social studies classrooms Sample activities developed with members of the Hofstra New Teachers Network reflect the current focus on document based instruction and assessment and can serve as tools for assessing student learning Increased attention is given to project based social studies instruction and to multicultural education Intended as a text for

undergraduate and graduate preservice social studies methods courses this text is also useful for in service training programs as a reference for new social studies teachers and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice **Curriculum Review** ,1985 *Handbook of Research on Using Educational Robotics to Facilitate Student Learning* Papadakis, Stamatios,Kalogiannakis, Michail,2020-12-05 Over the last few years increasing attention has been focused on the development of children s acquisition of 21st century skills and digital competences Consequently many education scholars have argued that teaching technology to young children is vital in keeping up with 21st century employment patterns Technologies such as those that involve robotics or coding apps come at a time when the demand for computing jobs around the globe is at an all time high while its supply is at an all time low There is no doubt that coding with robotics is a wonderful tool for learners of all ages as it provides a catalyst to introduce them to computational thinking algorithmic thinking and project management Additionally recent studies argue that the use of a developmentally appropriate robotics curriculum can help to change negative stereotypes and ideas children may initially have about technology and engineering The Handbook of Research on Using Educational Robotics to Facilitate Student Learning is an edited book that advocates for a new approach to computational thinking and computing education with the use of educational robotics and coding apps The book argues that while learning about computing young people should also have opportunities to create with computing which have a direct impact on their lives and their communities It develops two key dimensions for understanding and developing educational experiences that support students in engaging in computational action 1 computational identity which shows the importance of young people s development of scientific identity for future STEM growth and 2 digital empowerment to instill the belief that they can put their computational identity into action in authentic and meaningful ways Covering subthemes including student competency and assessment programming education and teacher and mentor development this book is ideal for teachers instructional designers educational technology developers school administrators academicians researchers and students *Senior Scholastic* ,1974 Perspectives of Global Education Raymond Henry Muessig,M. Eugene Gilliom,1981 *Magnet Schools* Ruth Yep Pechman,1987 Social Studies Readings National Council for the Social Studies,1971 ERIC Clearinghouse Publications ,1981 **Globalization and Global Citizenship** Irene Langran,Tammy Birk,2016-06-10 Globalization and Global Citizenship examines the meaning and realities of global citizenship as a manifestation of recent trends in globalization In an interdisciplinary approach the chapters outline and analyse the most significant dimensions of global citizenship including transnational historical and cultural variations in its practice foreign and domestic policy influences and its impact on personal identities The contributions ask and explore questions that are of immediate relevance for today s scholars including How does globalization in its current form present a new set of challenges for states non state actors and individual citizens How has globalization diminished expanded or complicated notions of citizenship What rights could exist

outside the context of state sovereignty How can social accountability be imagined beyond the borders of towns cities or states What forms of political representational legitimacy could be productive on the global level When is it useful possible or desirable for individuals to identify with global political communities Drawing together a broad range of contributors and cutting edge research the volume offers chapters that seek to reflect the full spectrum of approaches and topics providing a valuable resource which highlights the value of an extended and thoughtful study of the idea and practice of global citizenship within a broader consideration of the processes of globalization It will be of great use to graduates and scholars of international relations sociology and global studies affairs as well as globalization **Research in Education** ,1974

Reconceptualizing Quality in Early Childhood Education, Care and Development Zoyah Kinkead-Clark,Kerry-Ann Escayg,2021-06-09 Recognizing the various ecological contexts that support children s development while amplifying voices from across the globe this book challenges narrow interpretations of quality and best practice Each author offers a unique perspective on issues germane to the field of early childhood education perceptions of children curriculum teacher education and play based learning An innovative timely and much needed contribution this book represents an inclusive collection of theoretical and cultural knowledge as well as research Such a diverse multicentric lens opens new intellectual pathways for authentic reciprocal knowledge exchange while ensuring that a reimaging of early childhood education remains at the core of our teaching practice scholarship and activism This book invites everyone to imagine to dare to believe to hope and to act in the interests of children in the interests of communities and families and in the moral precepts of equity inclusion and justice **Community Action Rooted in History** Rahima C. Wade,2007 Teaching and Learning Elementary Social Studies Arthur K. Ellis,1991 With more and more attention to interdisciplinary teaching and learning and a new emphasis on constructivism teachers need better strategies for involving their students in social studies content New material on the National Council of Social Studies has also been incorporated KEY TOPICS The sixth edition of this popular book maintains its focus on the child and provides teachers with teaching strategies that emphasize inquiry concepts and moral development The entire book has been updated with new information and insight Teachers of social studies or daycare providers who want to incorporate social studies education in their daily routine Current Index to Journals in Education ,2001
