Tobbell, 2022-12-28 An analysis of the efforts of American nurses to establish nursing as an academic discipline and nurses as valued researchers in the decades after World War II Nurses represent the largest segment of the U S health care workforce and spend significantly more time with patients than any other member of the health care team Dr Nurse probes their history to examine major changes that have taken place in American health care in the second half of the twentieth century The book reveals how federal and state health and higher education policies shaped education within health professions after World War II Starting in the 1950s academic nurses sought to construct a science of nursing distinct from that of the related biomedical or behavioral sciences that would provide the basis for nursing practice Their efforts transformed nursing s labor into a valuable site of knowledge production and proved how the application of their knowledge was integral to improving patient outcomes Exploring the knowledge claims strategies and politics involved as academic nurses negotiated their roles and nursing s future Dr Nurse highlights how state supported health centers have profoundly shaped nursing education and health care delivery How to Design an Advisory System for a Secondary School Mark F. Goldberg, 1998 When Mark Goldberg first visited a school with an advisory system he was impressed by the way such a system personalizes school for secondary students provides a shared professional experience for the adults in a school and improves home school relations He decided that if given the opportunity he would bring an

advisory program to a secondary school Later when he became founding administrator of a high school he started an advisory system This book is based on his experiences Goldberg explains why an advisory system is important what it requires and how to tailor the concept to a particular school to provide an enriched experience for students staff and parents An advisory system stresses the advisor advisee relationship and ensures that every student is known well by at least one adult in a school That adult a teacher administrator librarian or other staff member becomes the student s advocate and the first person the student seeks out to discuss school problems with or to get advice about where to turn for assistance with more serious issues Such a relationship enhances the student s school life from course selection to decisions about the future This practical book provides a comprehensive look at a unique system for personalizing secondary school so students get the most out of their years in school and are better prepared for life after graduation

Software Goes to School
David N. Perkins, 1995. *Software Goes to School* brings together leading experts to offer an in-depth examination of how computer technology can play an invaluable part in educational efforts through its unique capacities to support the development of students' understanding of difficult concepts. Focusing on three broad themes: the nature of understanding, the potential of technology in the classroom, and the transformation of educational theory into practice, the contributors discuss a wealth of subjects central to any efforts that intend to improve our schools. Topics range from the difficulties students encounter when learning new ideas, especially in science and mathematics, to how the right software allows for hands-on manipulation of abstract concepts to the social realities of the educational environment.

Creating a Healthy School Using the Healthy School Report Card
David K. Lohrmann, 2010. Successful students are not only knowledgeable but also emotionally and physically healthy, motivated, civically engaged, prepared for work and economic self-sufficiency, and ready for the world beyond their own borders. To help students meet this standard, a school must use a coordinated, evidence-based approach that supports learning, teaching, and student growth. In short, the school must create a healthy school community. This action tool and accompanying online scoring and analysis tool offers a practical strategy for structuring your school environment to support the development of students who have the knowledge, skills, and abilities to make healthy choices. Updated to reflect current research, new standards, and best practices, the second edition of the action tool guides you through the four steps of the Healthy School Report Card process, with rationale, tips from successful participants, and easy-to-use tools. Tools for organizing can help you develop a school-level process for working with your community. You can then use the scoring tools to assess your school's current health programming and create an evidence-based environment that supports learning and teaching. With the tools for reporting, you can use the Healthy School Report Card to meet required guidelines and identify and prioritize areas for improvement. The data you collect can assist your ongoing efforts to garner the support of policymakers, family members, and the community.

Critical Approaches Toward a Cosmopolitan Education
Sandra R. Schecter, Carl E. James, 2021-08-30. This book aims to reconceptualize teaching and learning in spaces with diverse populations of young people. Chapters focus on the schooling experiences and social and cultural adaptation issues of individuals who, through the meaning that they assign to their lived experiences, ascribe to multiple identity qualifiers. Contributors explore the impact of this cosmopolitan awareness on students, educators, and educational institutions.
