Faith and Fortune in the Creation of Our Modern World Jan Vlieg, 2024-04-19 This book describes how our modern world came into being as a consequence of a series of accidental events unfolding in Europe from the 5th century onwards The events that led to Europe s success such as a competitive state system the rise of modern science and modern law individualism and the capture of the Americas were coincidental They were unsought unintended and unexpected The book discredits the Eurocentric idea that our advanced civilization is a consequence of cultural values inherent to Europeans such as rational thinking frugality hard work and honesty Modern industrial society which arrived in the span of a century after 50 agricultural centuries is a fluke of history It came as an explosion of technological breakthroughs in the 19th century turning the world European when its technology and economic political and cultural consequences quickly spread all over the planet This book argues that our modern advanced civilization is unique and is unlikely to be found anywhere else in the universe

Making Peace in Northern Ireland Charles Strozier, 2025-02-24

This book examines the remarkable process that led to peace in Northern Ireland after decades of violence That story lies in its granular history but equally in an appreciation of its psychological dynamics especially the emergence in the social and political realm of what the author calls radical empathy The leaders who made peace happen were all larger than life figures out of some 19th Century opera strutting across the stage of history But there was another hero in the mix one often noted for his presence but not fully appreciated by scholarly observers for his contributions to the peace process John Alderdice The son of a moderate Presbyterian minister a medical doctor and a psychiatrist and psychoanalyst Alderdice brought to the peace process his grasp of others his generosity and clarity of vision The Northern Irish story is immensely complicated but in the end uplifting They deserve the peace they have made for themselves The story of the Troubles is horrifying but the story of peacemaking is not just dramatic it inspires hope If the Irish can make peace anyone can That may be the most important lesson of this book And that lesson is transferable
