Using Images to Teach Critical Thinking Skills Diane M. Cordell, 2015-11-10 Learn how to teach visual literacy through photography an easy way for you to combine student interest with resources at hand to enhance a key learning skill Research indicates that 75 to 90 percent of classroom learning occurs through the visual system making visual literacy a key component of information literacy and of critical thinking a requirement throughout the Common Core standards It s no surprise then that

visual literacy is increasingly recognized as a competency that should be part of every student's skill set. Fortunately, this critical skill can be incorporated into existing curriculum, and this book shows you how to do just that. Written for K-12 classroom teachers and librarians, this all you need to know volume discusses the importance of visual literacy in education and examines how it helps address current learning standards. The book shows you how to use photography and digital images to cultivate critical thinking, inquiry, and information literacy, provides examples of the use of photographic images in the classroom and in real life, and addresses how students can be ethical practitioners in a digital world. In addition, the book includes sample lessons you can easily implement regardless of your level of technical and photographic expertise. A resource list of photo editing, curation, and museum sites is included.

No Outsiders: Everyone Different, Everyone Welcome Andrew Moffat, 2020-03-09. The No Outsiders programme promotes an ethos of inclusion and tolerance and aims to prepare children for life in modern Britain. Expanding the scheme published in the 2015 book *No Outsiders in Our Schools*, this book is designed to further support educators as they make the No Outsiders ethos part of their school culture at a time when messages of fear and division are rife. Written by a practising teacher whose work to promote equality has been globally celebrated, this book provides lesson plans for use in classes from EYFS to Year 6. Key features of the resource include plans for delivering the No Outsiders message through assemblies and classes, allowing for a flexible approach; recommendations for picture books that can be used to support messages of diversity and inclusion; a scheme of work designed to meet the requirements of the Equalities Act 2010 and support teachers as they prepare to implement the new Relationships Education curriculum 2020. It is the responsibility of primary schools to promote equality and diversity. This is a vital resource for all teachers and trainee teachers as they prepare children for a life where diversity is embraced and there is no fear of difference.

Teaching Literature and Language Through Multimodal Texts Domínguez Romero, Elena, Bobkina, Jelena, Stefanova, Svetlana, 2018-08-17. In the past few decades, there has been a growing interest in the benefits of linking the learning of a foreign language to the study of its literature. However, the incorporation of literary texts into language curriculum is not easy to tackle. As a result, it is vital to explore the latest developments in text-based teaching in which language, culture, and literature are taught as a continuum. *Teaching Literature and Language Through Multimodal Texts* provides innovative insights into multiple language teaching modalities for the teaching of language through literature in the context of primary, secondary, and higher education. It covers a wide range of good practice and innovative ideas and offers insights on the impact of such practice on learners with the intention to inspire other teachers to reconsider their own teaching practices. It is a vital reference source for educators, professionals, school administrators, researchers, and practitioners interested in teaching literature and language through multimodal texts.
