From Grade Books to Graphic Organizers David A. Dockterman, 2003 A practical guide to how computers can help teachers inside and outside the classroom *Teacher Tenure* Ovid K. Wong, Chak Lau, 2015-12-31 What is tenure It is a policy which gives teachers a permanent contract ensuring them a guarantee of employment like for life Tenured teachers cannot be fired unless for just cause such as gross misconduct or incompetence Proponents of teacher tenure say that it is good They argue that tenure prevents teachers from being fired for inappropriate reasons tenure protects teachers from false accusations tenure reduces teacher anxiety and allows them to become even better educators properly used tenure creates an environment where teachers are encouraged to improve and lastly tenure protects good but veteran teachers from being fired for being too expensive Opponents of teacher tenure say that it is bad They argue that tenured teachers if they are ineffective are often extremely difficult to dismiss dismissing tenured teachers takes a long time and is often extremely expensive almost every k 12 teacher receives tenure whether they have earned it or not and last but not least teacher tenure leads to complacency The purpose of the book is not to further debate the pros and cons of teacher tenure Rather it examines the critical elements to better prepare teachers for the tenure application and the tenure decision makers to make better informed evaluation *Teacher Tenure An Analysis of the Critical Elements* begins with an unlikely introduction of a story that uses rhetorical comparison of the shoe experience to connote the wisdom of the teacher tenure process **Teaching L2 Composition** Dana R. Ferris, John Hedgcock, 2014 This popular comprehensive theory to practice text is designed to help

teachers understand the task of writing L2 writers the different pedagogical models used in current composition teaching and reading writing connections Moving from general themes to specific pedagogical concerns it includes practice oriented chapters on the role of genre task construction course and lesson design writing assessment feedback error treatment and classroom language grammar vocabulary style instruction Although all topics are firmly grounded in relevant research a distinguishing feature of the text is the array of hands on practical examples materials and tasks that pre and in service teachers can use to develop the complex skills involved in teaching second language writing Each chapter includes Questions for Reflection Further Reading and Resources Reflection and Review and Application Activities An ideal text for L2 teacher preparation courses courses that include both L1 and L2 students and workshops for instructors of L2 writers in academic secondary and postsecondary settings the accessible synthesis of theory and research enables readers to see the relevance of the field s knowledge base to their own present or future classroom settings and student writers

Improving Internet Reference Services to Distance Learners Rita Pellen, William Miller, 2014-06-03 In their efforts to provide distance learners with the most effective services possible librarians and information specialists are working more and more with faculty in academic departments IT departments and other librarians at cooperating institutions Improving Internet Reference Services to Distance Learners chronicles how those efforts have seen librarians become actively involved in online course management and delivery systems particularly Blackboard Desire2Learn and WebCT or by embedding themselves into the online course structure to better learn where students need assistance This invaluable resource also examines how librarians use Internet resources to support professional and continuing education and to establish university wide information and referral services to provide quality service to distance learners Improving Internet Reference Services to Distance Learners encourages librarians to think more broadly about working with outside individuals when designing and providing reference and other services to nontraditional users The book examines why it s best to consider user needs funding staff management and collaboration development when planning Internet reference services how to develop and implement a required credit bearing online information literacy course and how to apply effective marketing techniques from the business world to increase awareness of reference support services available to distance learners It also offers a look at the Walden University Library at Indiana University Bloomington which houses no print collection only online databases and

includes case studies that document the design and development of Internet reference services for the University of Illinois Fire Service Institute and the efforts to provide support for doctor of pharmacy students at the University of Wisconsin Madison in their final year of study Improving Internet Reference Services to Distance Learners provides practical information on monitoring online discussion threads devoted to library research Web based interactive tutorials integrating library services in support of coursework integrating library services into online courses offering promoting and providing instruction to public users as well as local and distance students developing a web site that centralizes information about library services and resources the potential of the academic library to be the central provider of information and referral services for an entire university Improving Internet Reference Services to Distance Learners is an invaluable resource for librarians working in academic school special and public settings and for library science faculty and students **Going**

Gradeless, Grades 6-12 Elise Burns, Elise B Naramore, David Frangiosa, 2021-02-23 Grade reform and standards based grading SBG is a hotly debated issue in education As one high school administrator puts it Traditional letter grading is probably the biggest elephant in the room in regard to school reform We start grading at a young age and it becomes all about accumulating points and it's not about the learning anymore Dan Kelley principal of Smithfield High School Rhode Island When students can focus less on the score and more on the learning great things happen SBG is even more challenging in high school In this book the authors share their districts successes moving to alternate assessment methods that promote learning rather than solely achievement The proponents of grade reform highlight the arbitrary nature of grades the undue stress experienced by some learners and the potential interference in the process of learning On the other hand opponents reference the lack of accountability and a shift away from content knowledge that is perceived in many alternate assessment models This book outlines how to remove the negative impacts of grades while still maintaining a high level of accountability While the majority of other books in this space provide a rationale for why the shift is necessary these authors provide the classroom teacher's perspective and concrete examples of how these approaches can be developed and applied They provide sample assessments student work samples an accountability checklist a sample of their rubrics and a review of our collected data **Dynamic Advancements in Teaching and Learning Based Technologies: New**
