Pérez Jr., 1983-06-15 Cuban

independence arrived formally on May 20 1902 with the raising of the Cuban flag in Havana a properly orchestrated and orderly inauguration of the new republic But something had gone awry Republican reality fell far short of the separatist ideal In an unusually powerful book that will appeal to the general reader as well as to the specialist Louis A Perez Jr recounts the story of the critical years when Cuba won its independence from Spain only to fall in the American orbit The last quarter of the nineteenth century found Cuba enmeshed in a complicated colonial environment tied to the declining Spanish empire yet economically dependent on the newly ascendant United States Rebellion against Spain had involved two generations of Cubans in major but fruitless wars By careful examination of the social and economic changes occurring in Cuba and of the political content of the separatist movement the author argues that the successful insurrection of 1895-98 was not simply the last of the New World rebellions against European colonialism It was the first of a genre that would become increasingly familiar in the twentieth century a guerrilla war of national liberation aspiring to the transformation of society The third player in the drama was the United States For almost a century the United States had pursued the acquisition of Cuba Stepping in when Spain was defeated the Americans occupied Cuba ostensibly to prepare it for independence but instead deliberately created institutions that restored the social hierarchy and guaranteed political and economic dependence It was not the last time the U S intervention would thwart the Cuban revolutionary impulse
