**Anti-Spam Measures** Guido Schryen, 2007-08-10 I am not sure about the meaning of a preface neither about its convenience or needlessness nor about the addressees However I suppose that it is expected to tell a part of the story behind the story and that it is read by at least two types of readers The first group consists of friends colleagues and all others who have contributed to the opus in any way Presumably most of them like being named in the preface and I think they deserve this attention because they have accompanied the road to the opus and are thus part of the whole This second group comprises those academic fellows who are in the same boat as I am in terms of preparing or having even finished their doctoral or habilitation thesis All others be it that they generally like reading prefaces or expect hints with regard to the reading of this book are likewise welcome to reading this preface This book contains most parts of my habilitation thesis which was accepted by the Faculty of Business and Economics of the RWTH Aachen University Germany Unfortunately to avoid possible copyright violation I had to omit some paragraphs of the proposed infrastructure framework presented in Chapt 6 If you are interested in the full version of this specific chapter please contact me schryen@gmx.net and I will be happy to provide you an electronic copy Usually a thesis represents a loosely coupled collection of published papers cumulative thesis or a classic monograph
