American Lit Remixed Melissa J. Strong, 2021-04-30 American Lit Remixed identifies a new sound in literature emerging after the digital revolution. It reads works by Jennifer Egan, Sherman Alexie and others through the lenses of remix theory. The term Eduardo Navas coined to describe the remix as a form of artistic and cultural discourse and the music industry's preoccupations with nostalgia and authenticity arguing that digital age fiction, poetry and drama remix the music and technology of the past to offer new modes of connecting to self, others and place. Musical features such as references to popular songs, structural similarities to music recordings and thematic treatment of the riffing and borrowing endemic within popular music lend a retro sound feel and structure to contemporary American texts even when they refer to life in the digital era. Through engaging with the musical past, literature resists nostalgia and remixes the twenty-first century's dystopian disconnected ethos to find possibility and hope for the future. Critics often focus on technology's negative impact on the music industry but American Lit Remixed emphasizes music as a source of creative potential in twenty-first century literature including new ways of storytelling and relating.

Can We Skip Lunch and Keep Writing? Julie D. Ramsay, 2023-10-10 Publishing podcasts, writing digital stories with, choose your own adventure endings and collaborating with students around the country through wikis, Skype and VoiceThread. Julie D. Ramsay never imagined that she and her fifth grade students would be forging a new frontier using technology to support writing lessons. In a school district with minimal resources and a prescriptive curriculum that makes originality a constant challenge, Julie could have continued teaching grammar and writing skills in isolation. But when she realized how hungry her students were for real writing activities that enabled them to share and learn from their peers in other states, she overcame every obstacle that threatened to stunt their creativity and limit their opportunities to communicate in a digital world. **Can We Skip Lunch and Keep Writing** shows teachers how to weave technology throughout the curriculum and get students so fired up about writing that they don't want to stop when the class period ends. Readers will learn how to select appropriate digital tools, guide and involve students in the learning process and differentiate instruction to meet individual needs. Through Julie's inspiring stories and lessons, teachers in the intermediate and middle grades will discover how technology-assisted writing can foster innovation, global communication and creative problem solving, developing responsible, productive digital citizens whose inherent love of learning will travel with them throughout their lifetimes.
