Reading may be your least favorite thing but you have to take in as much information as you can. Use your other senses to study so you can absorb and retain the information better. You can also create mind maps if you are a visual person or listen to audio study guides if you prefer. If you have someone to teach what you're learning the better.

Give practice tests your all since it's the closest thing you'll get from the actual exam. Most study guides have practice exams. And you can also find them online. The best way to use them is to take them seriously so you can determine how far you need to go. Answer as many practice test questions as you can handle to prepare yourself better. If you know where to find practice test that are close to the actual exam the better. In no time, you'll get used to the same type of question.
