Psychopathology in Women Margarita Sáenz-Herrero,2014-10-14 Gender has a fundamental influence on the human brain not only by virtue of biological and hormonal differences between the sexes but also because of the impact of gender specific cultural social anthropological and environmental factors Nevertheless the relation of gender and psychopathology remains a largely neglected field Gender perspective has been treated as a paradigm in this book on psychopathology because it determines the way in which a psychiatric symptom is defined perceived and understood This conception of gender as being of key importance in the definition of psychiatric symptomatology is exceptional in the literature The book opens by examining historical and cultural aspects of mental health in women worldwide and the relation of sex brain and gender with coverage of both neurobiological and psychosocial aspects The significance of gender with regard to specific aspects of psychopathology is then addressed in detail A wide range of psychological disorders are considered as well as hormonal influences and issues concerning body image self identity sexuality and life instinct It is hoped that this book will make a significant contribution in ensuring that gender perspective receives due attention within descriptive psychopathology

A Theory of Legal Sentences
Manuel Atienza, J. Ruiz Manero, 1997-11-30 Legal statements are according to the authors the most basic elements of the law Nevertheless they must be considered not only as the pieces of a puzzle but also as the components of a dynamic and highly complex reality the law of contemporary society The book presents an analysis of the different types of legal statements mandatory rules principles power conferring rules definitions permissions values and the rule of recognition from a threefold perspective that is considering their logical structure their function in legal reasoning as reasons for action and their connections with the interests and power relationships among the individuals and the social groups The result is conceived as a first step in the building of a general theory of law designed not as an isolated discourse but as a decisive element for the dynamization of the legal culture
