that great power competition with China is misguided and vastly underestimates the costs and risks that geopolitical rivalry poses to economic prosperity the quality of democracy and ultimately global stability This in depth assessment of the trade offs and pitfalls of protracted competition with China reveals how such a policy exacerbates inequality leads to xenophobia and increases the likelihood of violence around the world In addition it distracts from the priority of addressing such issues as climate change while at the same time undercutting democratic pluralism and sacrificing liberty in the name of prevailing against an enemy other Jackson and Brenes provide an informed and urgent critique of current U S foreign policy and a road map toward a saner more democratically accountable strategy of easing tension and achieving effective diplomacy
