,1899 *Globalization Development and Social Justice* Ann El Khoury,2015-03-27 Are there existing alternatives to
corporate globalization What are the prospects for and commonalities between communities and movements such as Occupy
the World Social Forum and alternative economies Globalization Development and Social Justice advances the proposition
that another globalization is not only possible but already exists It demonstrates that there are multiple pathways towards
development with social justice and argues that enabling propositional agency rather than oppositional agency such as
resistance is a more effective alternative to neoliberal globalization El Khoury develops a theory of infraglobalization that
emphasizes creative constitution not just contestation of global and local processes The book features case studies and
examples of diverse economic practice and innovative emergent political forms from the Global South and North These case
studies are located in the informal social economy and community development as well as everyday practices from
prefigurative politics to community cooperatives and participatory planning This book makes an important contribution to
debates about the prospects for and practices of a transformative grassroots globalization and to critical debates about
globalization and development strategies It will be of interest to students and scholars of international relations globalization
