Soil Pollution Ibrahim Mirsal, 2013-04-17 Who ever has enjoyed following the legendary duel between the Egyptian Pharaoh and his magicians Alchemists on one side and Moses and his brother Aaron on the other as it is vividly narrated by the Bible must have realised that people at least those living at or near the eternal battle fields of the middle East have always had knowledge about the terrible consequences of soil pollution by chemicals This knowledge must have existed long before Moses and his Pharaoh No body knows when did it start yet it must have been born at very early times reaching back to the dawn of human consciousness As history teaches human knowledge explodes in logarithmic dimensions and times have come when pollution attained alarming levels with pollutants from industrial and military sources becoming a threat to life wherever it exists on this Earth At the end of the 20th century states started projects for pollution control and remediation major Universities changed their programs to accommodate environmental studies at central positions in their curricula and nations forgot their differences and came together to sign the Chemical Weapons Convention CWC and other treaties allowing pollution control on world wide scale
