Classroom Assessment

Lorin W. Anderson, 2003-02-26 This book is based on the belief that decision making is perhaps the most critical of all teaching skills and that good assessments lie at the core of good decision making To become better teachers then teachers must learn to make informed decisions about both individual students learning decisions and about groups of students teaching decisions This book gives equal status to both types of decisions and shows how assessment is integral to both The organization of the book is sequential mirroring the way in which information should be used to make decisions It begins with a conceptual framework linking information to decision making then moves to the design of assessment instruments and the collection of assessment information then to the interpretation of assessment information and finally to reporting the results of both the assessment and the decision making process There is an emphasis throughout on linking why teachers assess with what and how they assess Other key features include Practical Framework The book s framework corresponds to the framework that teachers use to grade their students conduct classroom behavior effort student motivation and achievement student learning Unique Chapters There are separate chapters on interpreting assessment information prior to decision making and on reporting assessment information to parents teachers and administrators Flexibility Because of its modest length and price and its practical focus on the links between assessment and everyday teacher decision making this text can be used either in full length assessment courses for teachers or to teach the assessment units in educational psychology or integrated methods courses *Case Studies in School Psychology* Stephanie A. Rahill, Lauren T.

Kaiser, 2021-09-06 *Case Studies in School Psychology* is the first textbook to comprehensively introduce the NASP Practice Model through active discussion of real life school based examples of issues facing school psychologists Incorporating all 10 domains of practice these true to life scenarios span individual child class wide school wide and district community wide organizational levels across multiple age and developmental ranges Graduate students will better understand their expansive roles and potential avenues to make positive impacts as school psychologists in children s academic social emotional and behavioral development *Developing Grading and Reporting Systems for Student Learning* Thomas R. Guskey, Jane M.

Bailey, 2001 This work brings organization and clarity to a murky and disagreement filled topic *Corporate to Classroom* Felecia L. Christian, 2012-02-22 *Corporate to Classroom* is designed to help new teachers especially those entering education from the corporate arena embrace the paradigm shift that is going to take place in their first few years of teaching Out there in the vast community of new teachers there are career switchers that are wondering why they left Egypt their last jobs only to be miserable in the desert their first year or so teaching The high turnover rate suggests that many teachers lose focus of the promise land successful educated children and a rewarding career This book will help all new teachers maneuver through the basics such as lesson planning and classroom management strategies More importantly this book will discuss all of the additional challenges that come with teaching such as training meetings duties relationships with coworkers assistants Para Professionals lack of materials for their students personal expenditures communication culture and structure or the lack
