

BUILD YOUR OWN OFF-ROAD BUGGY

This book, which follows a similar concept to the author's best-selling *Build Your Own Sports Car*, is a step-by-step guide to building a single-seater off-road buggy. Using standard tools, basic skills and low-cost materials, it shows how to make the frame, and advises how to modify and use cheap but serviceable mechanical components from a donor motorcycle. The result is both a low-cost, entertaining buggy and a learning experience in engineering and design.

This all-colour book includes instructions on:

- The tools and materials required.
- What to salvage from your donor motorcycle and where to find what else is needed.
- How to make the strong tubular-steel buggy frame, the axles and steering components, and the controls.
- How to choose a suitable engine and gearbox.
- Alternative ways of making some of the components.
- How to carry out finishing and final assembly.
- Where to use your buggy and how to drive it safely.

Ron Champion is the author of the best-selling *Build Your Own Sports Car*. After building a simple kart for his son James, he became interested in motorcycle-engined buggies when he was involved in youth and community work, and came up with a basic design similar to the one in this book. Young people in a youth training workshop recycled the major components from scrap motorcycles and successfully built dozens of these buggies, and went on to have hours of fun driving them.

Cover illustrations: Front The author and an excited new driver check over a buggy that has just been finished; and (below) a buggy in action. **Back** (from top) A completed buggy prior to painting; a bare buggy frame after powder-coating; a finished buggy is put through its paces.
