In-roads of Language Ignasi Navarro Ferrando, Nieves Alberola Crespo, 2006 In roads of Language caps an ensemble of many varied interesting and spirited articles of appealing claim specially garnered for students looking for new insights and usefully dedicated to advanced scholars that may battle in recent trends in English studies **Toward a Motivation Model of Pragmatics** Rong Chen, 2022-07-18 With the discursive turn has come a distrust a complete rejection by some of theories that seek deeper reasons for surface phenomena Rong Chen argues that this distrust with its accompanying overemphasis on specificity and fluidity of linguistic meaning and social values is unwarranted and unhelpful Drawing on insights from social theories and various strands of pragmatics he proposes a motivation model of pragmatics MMP contending that language use can be adequately coherently and elegantly studied via the motivation behind it in its varied and dynamic contexts The model with its well laid out components is then applied to im politeness research cross cultural pragmatics diachronic pragmatics discourse and genre analysis conversation analysis identity construction and the study of metaphor sarcasm parody and lying MMP is thus a framework aimed at accounting for fluidity with stable notions specificity with general principles and differences with similar underlying factors As such the book should appeal to students of pragmatics im politeness conversation analysis sociolinguistics applied linguistics communication sociology and psychology Cultura, Lenguaje Y Representación , **From Perception to Meaning** Beate Hampe, 2008-08-22 The 1987 landmark publications by G Lakoff and M Johnson made image schema one of the cornerstone concepts of the emerging experientialist paradigm of Cognitive Linguistics a framework founded upon the rejection of the mind body dichotomy and stressing the fundamentally embodied nature of meaning imagination and reason hence language Conceived of as the pre linguistic dynamic and highly schematic gestalts arising directly from motor movement object manipulation and perceptual interaction image schemas served to anchor abstract reasoning and imagination to sensori motor patterns in the conceptual theory of metaphor Being itself informed by preceding crosslinguistic work on semantic primitives in the linguistic representations of spatial relations carried out by L Talmy R Langacker and others the notion has inspired a large amount of subsequent research and debate on diverse issues ranging from the meaning structure and acquisition of natural languages to the embodied mind itself From Perception to Meaning is the first survey of current image schema theory and offers a collection of original and innovative essays by leading scholars many of whom have shaped the theory from the very beginning The edition unites essays on major issues in recent research on image schemas from aspects of their definition and linguistic formalization their psychological status and neural grounding to their role as semantic universals and primitives in language acquisition The book will thus not only be welcomed by linguists of a cognitive orientation but will prove relevant to philosophers psychologists and anthropologists interested in language and indeed to anyone studying the embodied mind Cognitive Explorations into the Category Schema of 'For' Katarzyna Rudkiewicz, 2016-12-14 Disparities exist in the way current linguistic research

approaches prepositions both in terms of definition and classification Despite an abundance of publications containing analyses of prepositions especially those in the English language relatively little attention has been devoted to the preposition for despite its high frequency of occurrence in English Carried out from a cognitive perspective and with the aid of Langacker's cognitive grammar methodology this text provides evidence in support of the thesis that for constitutes a category by itself characterised by a complex semantic structure that comprises a variety of schemas sanctioning the uses of for in the English language As such this book will primarily interest students and teachers that have an interest in cognitive linguistics

Migration and Media Lorella Viola, Andreas Musolff, 2019-03-07 The socio discursive landscape surrounding the migration debate is characterised by a growing sense of crisis in both personal and collective identities From this viewpoint discourses about immigration are also always attempts at reconstructing the threatened home identity of the respective host society It is such attempts at reasserting identity in crisis due to migration that are the focus of the volume Migration and Media Discourses about identities in crisis This four part book explores the representational strategies used to frame current migration debates as crises of identity collective and individual It features fourteen case studies of varying sets of data including print media texts TV broadcasts online forums politicians speeches legal and administrative texts and oral narratives drawn from discourses in a range of languages Croatian English French German Greek Italian Lithuanian Polish Russian Serbian Slovenian Spanish and Ukrainian and it employs different discourse analytical methods such as Argumentation and Metaphor Analysis Gendered Language Studies Corpus assisted Semantics and Pragmatics and Proximization Theory Such a diverse range of sources languages and approaches provides innovative methodological and theoretical analysis on migration and identity which will be of interest to scholars students and policy makers working in the fields of migration studies media studies identity studies and social and public policy As of January 2023 this e book is freely available thanks to the support of libraries working with Knowledge Unlatched

The Stylistics of Embodiment Anne Holm, 2025-01-22 This book presents a stylistic framework for analysing embodiment in lyric texts While the assumption that our minds are embodied underlies most approaches in cognitive stylistics and beyond a systematic account of the linguistic patterns through which the body may be manifested in poetic expression has not yet been provided Aiming to fill this gap the book focuses on contemporary lyric texts that prominently engage the senses in depicting past experiences Drawing its tools mainly from Cognitive Grammar and research on conceptual metaphors and iconicity the book investigates how sensory language gives rise to simulated embodied responses In doing so the book views poetic expression as a complex interplay of modalities and seeks to expand the concept of the lyric by incorporating digital poetry song lyrics performance poetry and lyrical prose among its case studies The book furthermore brings in current cognitive scientific research on the workings of memory to the analysis of sensory memory most centrally the psychological phenomenon of mental time travel It will be of interest to students and scholars working on stylistics literary studies and multimodal and intermedial studies

Current

Approaches to Metaphor Analysis in Discourse Ignasi Navarro i Ferrando, 2019-09-02 This volume takes up the challenge of surveying the present state of a variety of approaches to the identification analysis and interpretation of metaphor across communication channels situational contexts genres and social spheres It reflects three foremost trends of present metaphor research namely the communicative approach the cognitive modelling approach and the multimodality approach These trends are considered as areas of research emerging on the ground of the Conceptual Metaphor Theory initiated by Lakoff The book intends to show their concomitances as well as mark their diversifying paths The aim is to bring about and make apparent the many connections among assumingly different trends stemming from CMT Whereas discrepancies between communicative and conceptual perspectives might seem irredeemable the book emphasizes and claims that the background framework of CMT provides a solid foundation for collaboration and mutual influence Consequently the analysis of metaphor usage in context may provide insights for cognitive modelling proposals The analysis of cognitive configuration of conceptual domains may in turn illuminate our understanding of communicative decisions in discourse The integration of multimodal metaphor analysis puts forward the idea that diverse modal manifestations of metaphor reveal the symbiosis between communicative and cognitive stances The various subject areas and methodologies illuminate the scene of current research in the field The poignant contributions open far reaching avenues into the realm of human thought and discourse

Cognitive Linguistics between Universality and Variation Mario Brdar, Milena Žic Fuchs, Ida Raffaelli, 2012-11-15 This volume takes up the challenge of assessing the present state of Cognitive Linguistics on the cutting edge between universality and variability Claims of universality have never been explicitly articulated by cognitive linguists but studies on embodiment motivation and cognitive processes such as metaphor metonymy and conceptual integration rely on general cognitive abilities and hence tacitly assume cross linguistic commonalities Variability within a language and across languages has received growing attention especially in contrastive and corpus based studies Both perspectives are given ample space in the articles collected in the volume The present volume is the first to address the important issue of the position of Cognitive Linguistics between the poles of universality and variability The editors insightful introduction draws compelling awareness to this as a yet unresolved question At the same time the fine contributions collected in the volume reflect state of the art research in Cognitive Linguistics and point to innovative avenues for future research The interdisciplinary range of subject areas the new approaches pursued and the various methodologies employed makes this volume particularly valuable It should be of great interest to scholars working in the fields of Cognitive Linguistics and in specific languages particularly English and Slavic linguistics G nter Radden University of Hamburg *Film as Embodied Art* Maarten Coëgnarts, 2019-12-17 How do the films of Kubrick communicate mental events of characters in a purely visual manner And how does the music in his films express meaning when music in essence is an abstract and non representational art form Drawing on state of the art discoveries within embodied cognitive science this book sets out to address these and other

questions by revealing Kubrick as a genuine artist of embodied meaning making a filmmaker who perhaps more than any other director uses all the resources of filmmaking in such a controlled and dense manner as to elicit the embodied tools necessary to achieve a level of conceptual clarity

A New Identity of Obligation: Metaphors and Paul's Ethical Argument in Romans 6:1-14 Andrés D. Vera, 2025-06-19 In Romans 6 1 14 Paul corrects an erroneous ethical conclusion drawn from the narrative of God's grace in Romans 3 5 This innovative study employs tools from cognitive linguistics to unveil Paul's sophisticated rhetorical strategy for resolving the indicative imperative tension By moving beyond traditional theological frameworks the book shows how Paul presents believers new identity as defined by a new obligation illuminating the metaphorical narrative that undergirds Paul's logic Readers will better understand the importance of conceptual spaces like in sin and in Christ and how Paul conceptualizes the relationship between believers and their old selves who have been crucified *Docència universitària*, 2001-01-01 *Perspectives on Prepositions* Hubert Cuyckens, Günter

Radden, 2013-07-31 In the past two decades the study of prepositions has grown steadily The papers collected in this volume bring together the multifaceted perspectives on prepositions that have been developed in contemporary linguistics Some papers mainly discuss syntactic and morphological aspects of prepositions other papers predominantly focus on cognitive aspects All the papers are however concerned with the semantics of prepositions This volume evolved from a workshop on prepositions held at Hamburg University on June 26 and 27 1998 Medical Discourse in Professional, Academic and Popular Settings Pilar Ordóñez-López, Nuria Edo-Marzá, 2016-08-09 This volume investigates the features and challenges of

medical discourse between medical professionals as well as with patients and in the media Based on corpus driven studies it includes a wide variety of approaches including cognitive corpus and diachronic linguistics Each chapter examines a different aspect of medical communication including the use of metaphor referring to cancer the importance of ethics in medical documents addressed to patients and the suitability of popular science articles for medical students The book also features linguistic textual and discourse focused analysis of some fundamental medical genres By combining sociological and linguistic research applied to the medical context it illustrates how linguists and translation specialists can build bridges between health professionals and their patients **Multiple Voices in Academic and Professional Discourse** Sergio

Maruenda Bataller, 2011-05-25 The demands of today's society for greater specialization have brought about a profound transformation in the humanities which are not immune to the competitive pressure to meet new challenges that are present in other sectors Thus lecturers and researchers in modern languages and applied linguistics departments have made great efforts to design syllabi and materials more attuned to the competences and requirements of potential working environments At the same time linguists have attempted to apply their expertise in wider areas creating research institutes that focus on applying language and linguistics in different contexts and offering linguistic services to society as a whole This book attempts to provide a global view of the multiple voices involved in interdisciplinary research and innovative proposals in

teaching specialized languages while offering contributions that attempt to fill the demands of a varied scope of disciplines such as the sciences professions or educational settings The chapters in this book are made up of current research on these themes discourse analysis in academic and professional genres specialized translation lexicology and terminology and ICT research and teaching of specialized languages *Estudios de lingüística aplicada* José Luis Otaola, Inmaculada Fortanet, Victòria Codina, 1997 Importante acopio de trabajos de sociolingüística psicolingüística lexicología etc que vieron la luz en el XIII Congreso de Lingüística Aplicada y que tratan diferentes aspectos como la enseñanza de la lengua materna la formación del profesorado tecnologías aplicadas a la educación etc Experiències de millora i innovació de la docència Universitària. Miguel Ángel Fortea Bagán, Leonor Lapeña Barrachina, 2003-06 La innovación educativa y la calidad de la docencia son los objetivos de estas experiencias prácticas presentadas en la II Jornada de Mejora Educativa de la Universitat Jaume I cuyas actas esta publicación *Culturas cara a cara* Francisco Raga Gimeno, 2006 Este libro plantea las claves necesarias para comprender y poner en práctica la comunicación intercultural Se presenta un texto que admite dos lecturas alternativas una aproximación narrativa explicativa y otra de naturaleza más didáctica mediante una propuesta abierta de actividades

Slowing Metaphor Down Gerard J. Steen, 2023-06-15 If thinking can be fast or slow metaphorical thinking can be fast and slow too But metaphorical thinking does not occur as often and in the ways that many metaphor scholars today think Slow metaphorical thinking does mean however that we can exert more control over metaphor than has previously been acknowledged We can even offer resistance to metaphor Deliberate Metaphor Theory DMT claims that there is an essential processing difference between non deliberate and deliberate metaphor use which can explain all this This book is the first full account of the DMT model for metaphor comprehension It presents explicit conceptualization and formal operationalization and is based on a well known cognitive psychological model for all utterance comprehension in discourse The original three dimensional model of DMT is here refined into a four dimensional model which reveals new research questions and discoveries about the use of metaphor The book brings together numerous cognitive scientific insights into metaphor It has a high degree of interdisciplinary accessibility to all students of metaphor whether master students PhDs post docs or established academics
