Veterans Administration. Dept. of Medicine and Surgery,1958

Clinical Instruction & Evaluation Andrea B. O'Connor,2014-05-21 *Clinical Instruction and Evaluation A Teaching Resource Third Edition* is designed to guide instructors through the learning process by providing clinical nurses with the theoretical background and practical tools necessary to succeed as a clinical nursing instructor The theory used to support the practice of clinical education is presented in a straightforward easy to understand manner This text offers approaches to structuring clinical experiences for students evaluating student performance and solving problems encountered in clinical settings The Third Edition has been completely revised and updated and now includes a larger focus on teaching people from other cultures and traditions as well as the critical issues around the nursing shortage The nursing shortage has increased the demand for nursing educators and as a result nursing programs are now turning to clinically expert nurses to play a role in the educational process *Clinical Instruction and Evaluation* helps the clinical nurse make a smooth transition to nurse instructor Key Features Emphasizes the clinical component of the faculty role Employs a practical approach to make the process of teaching in the complex clinical area accessible Chapters can be used independently allowing instructors to use content creatively without being bound by the organization of the text Unique focus on the interpersonal relationship between the instructor and student found in specific chapters 15 16 as well as throughout the text Provides concrete examples for instructors to leverage in the classroom to elicit critical thinking and clinical judgment responses from students

How to Function Effectively as a Teacher in the Clinical Area Grace K. Clissold,1963 *Introduction to Medical-Surgical Nursing - E-Book* Adrienne Dill Linton,2014-04-14 With just the right level of information to equip you to effectively care for adults and older adults Linton s *Introduction to Medical Surgical Nursing 5th Edition* is the leading LPN LVN text in its field Covering both med surg and psychiatric mental health conditions and disorders it addresses your role in a variety of care settings emphasizes culturally competent care and holistic nursing and thoroughly covers all relevant NCLEX PN Test Plan content Abundant real life case studies clearly show how to apply what you ve learned to clinical practice Features separate chapters on common high profile disorders including hypertension diabetes and shock providing an in depth understanding for patient care Offers foundational units on basic concepts related to the health care system care settings the nursing process leadership nutrition the older adult growth and nutrition legal ethical considerations evidence based nursing care

and many more essential topics avoiding repetition later in the text Includes a separate comprehensive unit on the older adult and related disorders no other LPN LVN med surg text has as much coverage of this primary patient group Includes a separate comprehensive unit on psychosocial responses to illness psychiatric disorders and substance abuse eliminating the need for a separate psychiatric mental health nursing text Emphasizes content related to the NCLEX PN Test Plan including health promotion nutrition legal ethical issues HIPAA and prevention of medication medical errors Offers in depth pharmacology coverage the Pharmacology Tutorial covers drug classifications how drugs work and nursing responsibilities Pharmacology Capsules boxes provide medication information precautions for use interactions and side adverse effects and Pharmacology and Medications tables in body systems chapters include classification use action side adverse effects and nursing interventions all with the goal of reducing medication errors on the job and equipping you to pass the NCLEX exam Assists with assignment and supervision helping you assign tasks to nurse assistants patient care techs and unlicensed assistive personnel and making sure you understand the difference between delegation management supervision and assignment of tasks on the health care team Features Diagnostic Tests and Procedures tables for a quick reference to MRI CT Doppler flow lumbar puncture tests for neurologic disorders and much more Highlights timely information with Health Promotion boxes Cultural Considerations boxes Nutrition Considerations boxes and Complementary and Alternative Therapies boxes Provides bulleted lists of nursing instructions for Patient Teaching Plans stressing the role and responsibility of the LPN LVN to reinforce patient education Provides consistent Nursing Care Plans that reinforce the nursing process and focus on critical thinking and Put on Your Thinking Cap Critical Thinking boxes encourage you to pause and consider the practical implications of what you have just read

The Teacher's Guide to Student Mental Health William

Dikel, 2014-07-21 From ADHD to schizophrenia and everything in between what teachers need to know about their students mental health Twenty percent of children and adolescents have a mental health disorder and in five percent the disorder is severe Chances are that every classroom in America will have at least one student who has a mental health disorder possibly even in the severe range These students often have symptoms that interfere with their ability to learn From Ontario Canada to California school districts and state Boards of Education are recognizing the importance of comprehensive approaches to student mental health that include teacher education By understanding child and adolescent mental health issues general education and special education teachers have additional tools to provide the most successful educational environment for their students But where can a teacher turn to get reliable information on what they need to know Here William Dikel MD a board certified child and adolescent psychiatrist who serves as a consultant to school districts nationwide answers the call with a comprehensive teacher focused guide to student mental health From anxiety and depression to ADHD autism spectrum disorders behavior disorders substance use disorders and psychoses this practical book provides essential information on how mental health disorders are diagnosed and treated how they tend to manifest at school and how they

affect students emotions behaviors and ability to learn It explains why traditional behavioral interventions are often unsuccessful and describes effective classroom interventions that teachers can use to provide optimal educational experiences Teachers will learn the differences between normal child and adolescent behaviors and behaviors that reflect underlying mental health disorders and will recognize where these behaviors fall on a spectrum ranging from behavioral planned volitional acts that clearly have a function to the clinical where a mental health disorder is causing the behavior They will also learn how to communicate effectively with their school teams and student families to ensure that school mental health staff psychologists social workers counselors and nurses will be able to provide appropriate interventions for students in need Administrators will learn the importance of creating a district mental health plan that clearly defines the roles of teachers mental health staff principals and others with the goal of establishing a seamless system of coordinated professionals all working to meet the student s needs Finally the book profiles successful programs provided both by school districts and in collaboration with community mental health professionals including Response to Intervention RTI Positive Behavioral Interventions and Supports PBIS social emotional learning and school linked mental health services Based on the author s thirty years of experience providing consultation to teachers in settings varying from general education classrooms to self contained special education programs for severely emotionally disturbed students this book will be an invaluable guide for parents school principals special education directors school social workers counselors psychologists and nurses
