Alternative Medicine Edzard Ernst, 2019-06-29 Alternative medicine AM is hugely popular about 40% of the US general population have used at least one type of alternative treatment in the past year and in Germany this figure is around 70% The money spent on AM is considerable the global market is expected to reach nearly US 200 billion by 2025 with most of these funds coming directly out of consumers pockets The reasons for this popularity are complex but
