Gravity

- Gravity is the force that attracts objects toward each other and towards the center
- Gravity is responsible for the orbit of the planets, and for keeping everything in one place.
- Without gravity, we would fall apart

Revolution

- Revolution means to go around something, it also means 'orbit'
- Earth and the other objects in our solar system revolve around the Sun, the moon revolves around the Earth
- It takes the Earth 365 days to revolve around the Sun.
