in Cambodia Vincent McNamara, Martin Hayden, 2022-05-14 This book is the most comprehensive account yet published about the education system in Cambodia. It covers all system levels and draws upon the knowledge and insights of a wide range of leading Cambodian and foreign scholars. The book focuses on how the system has developed and is making progress. Significant achievements over the past two decades are evident but many problems remain including the poor quality of teaching, research and institutional management. Underfunding is an ongoing obstacle but so too is a bureaucratic culture of resistance to change, a history of weak governance and an anti-reform sentiment deriving from a teacher-centred and exam-driven curriculum. Achieving international standards must now be the system's highest priority. To this end the system must rid itself of conservatism, complacency and manipulation by parochial vested interests. face2face Advanced Teacher's Book with DVD

Theresa Clementson, Gillie Cunningham, Jan Bell, 2013-09-26 face2face Second edition is the flexible, easy-to-teach 6-level course A1 to C1. Homeschooling High School Shirley Erwee, 2014-08-28 Prospective homeschoolers are parents looking for an alternative to the mainstream educational system for their offspring. But homeschooling children at high school level strikes fear into even the most dedicated of homeschoolers. They need information and answers to their questions. And with the current educational and unemployment problems in South Africa, young people need clear direction and guidance to help them achieve their goals. In addition to exploring the popular ways to gaining a recognised matric certificate outside the formal school system, *Homeschooling High School* also challenges readers to rethink their values, particularly the value they place on certification and to consider some unconventional or alternative paths to success. In a clearly presented format, the book includes advice on legal matters, identifying appropriate courses, sourcing study material, tips on entrepreneurship, financing tertiary studies and the testimonies of successful homeschooled graduates. *Homeschooling High School* is a comprehensive guide to plotting a path through high school and beyond.
