Operational Research in the Digital Era - ICT Challenges Angelo Sifaleras, Konstantinos Petridis, 2018-09-27 This proceedings volume highlights the role and importance of Operational Research OR in the digital era and the underlying ICT challenges. The selected papers cover recent advances in all branches of operational research: mathematical modeling and decision making. It covers a wide range of key areas from digital economy to supply chain management and also finance. The book adopts an applied perspective that covers the contributions of OR in the broad field of business and economics linked with the discipline of computer science. The chapters are based on papers presented at the 6th International Symposium 28th National Conference on Operational Research. Although the conference is organized by the Hellenic Operational Research Society HELORS, the contributions in this book promote international co-operation among researchers and practitioners working in the field.

Handbook of Research on Building Inclusive Global Knowledge Societies for Sustainable Development Popescu, Cristina Raluca Gh., 2022-06-17 Knowledge and information have significant impacts on individuals' daily lives and activities, especially when referring to the new economy and the global knowledge societies. However, the COVID-19 pandemic has caused massive disruptions in the creation of the vital inclusive global information society. Due to this change, further study on the current difficulties and best practices of creating global knowledge societies is required in order to ensure communities can continue to advance and information is shared appropriately. The Handbook of Research on Building Inclusive Global Knowledge Societies for Sustainable Development aims at providing an updated view of the newest trends, novel practices, and latest tendencies concerning building inclusive global knowledge societies for sustainable development while focusing on the benefits and the opportunities derived from the new economy and the global knowledge societies. Covering topics such as smart cities, food security, and climate change, this major reference work is ideal for policymakers, government officials, business owners, managers, academicians, scholars, researchers, practitioners, instructors, and students.
