Formats for Evaluation of Independent Study

Evaluation of any instructional program is critical. By examining the operations and pupils' performance in light of clearly stated and measurable objectives, the district is able to know how well a program is meeting those objectives. Because independent study is relatively new in many districts and, by intent, is very flexible, the need for good evaluation is critical. Although evaluation is not specified in either the *Education Code* or the *California Code of Regulations, Title 5*, an annual evaluation and review of independent study by the local board of education is advisable. Some districts use advisory committees consisting of teachers, students, parents, and community members to assist in the design and evaluation of independent study. Where the governing board has established an alternative school pursuant to *Education Code* Section 58500, in which independent study is one of or the only instructional strategy, the use of advisory committees is recommended and is consistent with *Education Code* Section 58510.
