National Remote Control, Inc.

© 2004 Blackwell Publishing Ltd, *Journal of Internal Medicine* 255: 103–110

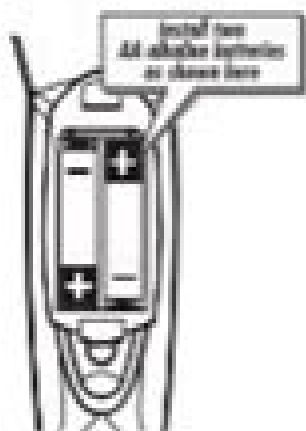

9 Introduction

The remote control is designed to operate JVC's CM5-AM5000 Digital Cable Box and the majority of TVs on the market.

② Replacing Batteries

Before you program or operate the remote control, you must install two AA alkaline batteries.

- STEP 1** Remove the battery compartment cover on the back of your remote control.
- STEP 2** Check battery polarity carefully, and install the batteries as shown in the illustration below.
- STEP 3** Replace the battery compartment cover.

2 Operations

University of North Carolina

Before we get to the programming, the volume and rate through our TV is 100%

③ Southern Farmington

5 Programming the Remote Control

A New Best Cost Approximation Method

The remote control can be programmed by pressing in a three digit code number that corresponds to particular manufacturers worldwide of TV.

The three-digit code numbers are listed in the code table at the bottom of each page.

- STEP 2** Press the **[74]** button and the **[200E]** button simultaneously for 1 second. The **G** button will turn on indicating the unit is ready to be programmed.

Tip: The **OK** button will light up for 30 seconds. The next step must be entered while the **OK** button is on.

- Step 2** Point the remote control toward the TV and enter the three-digit code number assigned to your brand from the code list.

***Tip:** The TV will turn off when the correct three-digit code number has been entered. You can verify you have selected the correct code by pressing the **ALL** button; the TV should turn on again.

***Note:** If there is more than one three-digit number listed for your brand, my one code number is a clue until you're 75 years old.

- TIP** Save the three-digit code further by pressing the [F4] button once again. The [Q] button will then confirm that the code has been saved.

***Note:** Try all the functions on the various control. Some of the functions do not work as they should, report from Page 2 using the next three-digit code number from the same board lot.

12. Master Concept: Method

If the three-digit code numbers assigned to your brand do not turn off your TV or the code takes to halve your brand, you can use the Auto Search Method to find the correct three-digit code number for your TV in the following steps:

- STEP 2** Press the [TV] button and the [DNR] button simultaneously for 1 second. The display will turn on.

Tip The ID button will light on for 30 seconds. The most sleep must be entered while the ID button is on.

- STEP 3** Press the **[ON-]** or **[ON+]** button one step at a time or keep it pressed. The battery will emit a series of Power ON/OFF commands. Release the **[ON-]** or **[ON+]** button as soon as the device starts.

Tip: You can verify that you selected the correct state by pressing the [Q] button again. The TV should either let us know or not.

- CHPL** Press the [TV] button to store the code. The [E] button will blink to confirm that the code has been stored.
