### **Clinical Decision Making for Adult-Gerontology Primary Care Nurse Practitioners** Thanavaro, Karen S.

Moore, 2016-03-15 Clinical Decision Making for Adult Gerontology Primary Care Nurse Practitioners provides a systematic approach to clinical decision making for a wide variety of commonly encountered primary care issues in adult and geriatric practice. Unlike other textbooks, it details a progressive approach to handling such issues by focusing on the complete visit from history intake through management and follow-up care. The goal of this text is to enable students to learn a systematic approach to clinical problems and use evidence-based guidelines to direct their management decisions. Designed for both the student and the newly practicing NP, this text serves as a guide to increase the practitioner's confidence with the application of assessment skills, diagnostic choices, and management approaches. Throughout the text, students will find guidelines for the adult gerontology nurse practitioner role as well as real-life case studies that demonstrate what an NP may encounter in the clinical practice environment. The text is written at an application level, employs up-to-date evidence-based literature, and features practice questions, all of which make this a strong resource for certification preparation.
