Integrative Pharmacology-based Research on Traditional Medicine: Methodologies, Medical and Pharmacological Applications Hai Yu Xu, Chang-xiao Liu, Yanqiong Zhang, Yan Xu, Takashi Sato, 2023-09-19 Integrative Pharmacology can be used to determine the multi-pharmacological effects of traditional medicines such as traditional Chinese medicine (TCM), Kampo, Sa-sang, Ayurveda, etc. Through qualitative and quantitative pharmacokinetic, pharmacodynamic, PK/PD correlations among multi-constituents and multi-targets, integrating chemical profiling, ADME/PK processes, molecular network calculation, and resulting experimental validation, the use of Integrative Pharmacology has become widespread. The data has provided a novel paradigm to evaluate the druggability of bioactive ingredients of herbs or formulae to decipher the pharmacological mechanisms of drug action and to screen potentially new indications for approved drugs and previously unidentified adverse events. On this basis, Integrative Pharmacology may offer an effective way to test the potential scientific basis for traditional medicines and to assess what roles of traditional medicine can and cannot play in pharmaceuticals.

Thesaurus of ERIC Descriptors, 1972 Science As Power Stanley Aronowitz, Science has established itself as not merely the dominant but the only legitimate form of human knowledge. By tying its truth claims to methodology, science has claimed independence from the influence of social and historical conditions. Here Aronowitz asserts that the norms of science are by no means self-evident and that science is best seen as a socially constructed discourse that legitimates its power by presenting itself as truth.

Broadband Seafloor Sediment Acoustic Property and Multi-Parameter Geoacoustic Model Guangming Kan, Xingsen Guo, Jingqiang Wang, Baohua Liu, 2025-05-13 The seafloor is an important boundary of the ocean sound field, and the acoustic property of seafloor sediment and its spatial distribution are important factors that affect

the propagation and variation of sound waves in the ocean The research of seafloor sediment acoustic property geoacoustic property is an interdisciplinary subject involving marine geology marine geophysics and marine acoustics The research of geoacoustic property mainly includes measurement techniques on geoacoustic property the impacting factors on the geoacoustic property the relationship between geoacoustic property and the physical mechanical parameters geoacoustic model application of geoacoustic property and so on The research of geoacoustics has important practical value and significance in many fields such as ocean sound field prediction marine engineering construction marine resources exploration marine disaster prevention etc There are many institutes and scientists to do research on seafloor sediment acoustics At present research on the acoustic property of seafloor sediments and geoacoustic models mainly focuses on high frequency and single parameter models while research on broadband geoacoustic property from low frequency to high frequency and multi parameter geoacoustic models are relatively lacking With the development of new technology such as in situ measurement at mid and low frequencies low frequency geoacoustic inversion and prediction methods based on artificial intelligence technologies such as machine learning and neural networks research on broadband geoacoustic property from low to high frequency and multi parameter geoacoustic models have received more attention

various points in their school career from home language to English or Afrikaans after the foundation phase from one language of learning and teaching to another when they move to new schools high school or tertiary institutions This book is an attempt to highlight the transitions from home to school from foundation to intermediate phase from primary to high school and from high school to tertiary institutions *Computers and the Classroom* ,1982 Quality Education in Ethiopia Amare Asgedom,1998 **Apoptosis Induction/Suppression: A Feasible Approach for Natural Products to Treatment of Diseases, Volume II** Hong Zhang,Wei Peng,Xin Luan,2022-05-30 **Innovative Computing** Jason C.
