Money As Emotional Currency Psychoanalytic Ideas And Applications Series:

Money as Emotional Currency Anca Carrington, 2018-04-17 This book explores the trace of the emotional undercurrent stirred by money from its beginnings in childhood to its consolidation into adult life through love and work for individuals and society alike and with an emphasis on ordinary development rather than on pathology **The New York Times Book**

Review, 1980 Presents extended reviews of noteworthy books short reviews essays and articles on topics and trends in publishing literature culture and the arts Includes lists of best sellers hardcover and paperback *The Nation*, 1990

Emotional Currency Tia Maytag Backman, 2008 *Money Talks* Brenda Berger, Stephanie Newman, 2012-03-12

Sometimes referred to as the last taboo money has remained something of a secret within psychoanalysis Ironically while it is an ingredient in almost every encounter between analyst and patient the analyst's personal feelings about money are rarely discussed openly or in any great depth So what is it about money that relegates it to the background both on the couch and off In *Money Talks* Brenda Berger Stephanie Newman and their excellent cast of contributors address this and other questions surrounding the tender topic of money how we talk about it and how it talks to us Its multiple meanings are explored in the contexts of patients and analysts and the ways in which they relate in the training and practice of the analysts themselves as well as the psychological and cultural consequences of having too much or too little in both flush and tight economic times Throughout a clinical sensibility is brought to bear on money's softly spoken place in therapy and life *Money Talks* paves the way for an open discourse into the psychology of money and its pervasive influence on the psyche of both patient and analyst *The Psychoanalysis of Money* Ernest Borneman, 1976 **Money and Mind** S. Klebanow, E.L.

Lowenkopf, 2012-12-06 Money like sex has been essential to the rise and development of civilization The first known writings were records of simple business transactions and later on money came to be used as a common denominator for all goods Current dealings with money have become infinitely more complicated than at the beginning of recorded history but its basic meaning is the same a medium underlying all goods and services in which comparative values are measured and by which they are acquired Certainly money is a vital and essential part of our everyday life It is hard if not impossible to conceive of any of us going through a single day's series of experiences without using it or one of its symbolic equivalents checks credit cards letters of credit IOU's scrip food stamps or what have you Both of us have had a longstanding interest in money in what it could and could not buy in investing spending and allocating Our personal interest in money antedated our professional training and our career pathways for we were people first before we became people who were therapists **Loaded**

Subjects David Bennett, 2012 Responding to the trauma of the current global financial crisis this book brings together an eclectic group of psychoanalysts philosophers cultural theorists and historians to debate the links between psychology money and economic crashes It issues a double challenge to economists who define economic behaviour as necessarily rational and self interested while relegating other models of monetary thought to psychopathology and to psychoanalysts who find it hard

to confront the economics of their own profession as a business while neuroticising and biologising any economic behaviour that exceeds their own unspoken yardstick of commonsensical financial self interest Contributors to this book investigate issues as diverse as the century old divorce between psychological and economic explanations of human behaviour and current efforts to repair it the gender politics ethics and psychology of economists attempts to explain today's rolling crisis in money markets psychoanalytic theories of financial investment risk and the jouissance of devastating loss the rise and cataclysmic fall of Bernie Madoff's Ponzi scheme the squandering of fortunes on rubbishy art in times of financial crisis the attraction of Deleuzian speculation versus Freudian investment the nexus between political economy and libidinal economy the mystifying effects of treating the market as a subject capable of speaking reacting and punishing and the fate of desire in postmodern hyper commoditised culture Contributors David Bennett Geoff Boucher Claire Colebrook Paul Crosthwaite Karl Figlio Bruce Fink Stephen Frosh Jean Joseph Goux Campbell Jones Viktor Mazin Manya Steinkoler Matthew Sharpe Bernard Stiegler and Tan Waelchli A number of the essays in this book are based on contributions to the conference on Psychoanalysis Money and the Economy hosted by the Freud Museum at Birkbeck College University of London in 2010 which were subsequently collected in new formations 72 David Bennett is Honorary Principal Fellow and Associate Professor in the School of Culture and Communication at the University of Melbourne and a Fellow in the Centre for Psychoanalytic Studies at the University of Essex His books include Multicultural States Rethinking Difference and Identity 1998 and 2002 and the forthcoming The Currency of Desire Essays in Libidinal Economy Psychoanalysis and Sexual Revolution 2013
