More than Don't Let 'em Win DC Vesser, 2020-01-21 This book attacks a poison that for so very long we have called political correctness Political correctness PC is the act of avoiding expression or language that can perceptively be construed as marginalizing by specific minorities or demographic groups It is often difficult to argue against PC because supporters of PC are likely to claim that contrary to using PC one would instead use expressions or language that offends which is oft what I wind up doing This response is a false conflation of permitting and condoning but the fallaciousness usually doesn't deter those who want to win the argument It's easy to accuse someone of simply seeking justification to use epithets in order to put him on the defensive and into the unenviable position of having to assert that he's not a racist It's also dirty and hateful to do so and that's how such responses should be considered We also review Agenda 21 Document 7277 the Illuminati the Club of Rome and the Committee of 300 in brevity We discuss the New World Order and

speculate about megaregions and their locations both in the United States and abroad We take a very long train ride from the most southern tip of South America all the way to New Zealand and we discuss possibilities for a likely location for the capital of the world that may surprise you We even speculate about a location right here in the United States for a habitat for useless eaters We discuss how close we have come in our society to achieve all the goals of the New World Order I really hope you enjoy the read *The New York Times Index* ,2006 **The Sunday-school Times** ,1887 *Engineering News-record* ,1955 **Publishers' International ISBN Directory** International ISBN Agency,1999 **Social Studies Multicultural Calendar** Milwaukee Public Schools,1983 **Four-day School Week** ,1979
