**Mobile Tech Report 2014** John R. Roberts, 2014-01-10 If you read technology news you'll notice it's not just a story of amazing new product introductions or even that plus copycat product introductions All the usual aspects of business are there fierce competition new contenders old survivors great ideas but business failures mediocre ideas that somehow seem to succeed and prosper As a reporter commentator and blogger on mobile technology I've collected what happened in the industry in 2013 and make predictions on what will and won't happen in 2014 You can read what did happen in the mobile technology in 2013 Often I deliver a comment with the news item and usually there is a link to the web page of the original announcement This way you can dive into any detail level you desire read my news feed for the overview or follow the related web link to the longer article History is moving so fast now that it is all recorded electronically but I'm surprised no one else has collected it and presented it for consideration Here is 2013 from the mobile technology industry for your consideration along with my own observations and opinions about where things are headed It's often overlooked that the technology industry is an industry By that I mean its main concerns are profit and growth As consumers we love the new products and unique abilities we are gaining from technology but it is a business akin to any other trying to seduce us to pry money out of our wallets So I cover the horse race aspect of the business who's up who's down Is that changing Is that likely to change The longer implications of what the technology industry is doing are vast and social We are moving to an always on always connected society where we can communicate with someone instantly and find an answer to any question quickly The entire database of human knowledge is now available in the palm of your hand whenever you desire it Everything is there the good the bad right and wrong hate and love music and noise We are obsessed

with technology not in and of itself but as a means to an end Technology is the means to satisfy our curiosity or even our desire for self expression We are taking photos machine gun style with our smartphones and choose the few to share As humans we are gathering ever more data about ourselves and sharing more about ourselves than we probably thought possible Bill Gates was once asked why the computer industry had generated so much improvement in its products over a relatively few years He gave some boring answer about Moore s Law but the real answer is that computers are in their teenage years They are growing and growing They will not always do so So too the technology industry is in a state of rapid change I see the shift to smaller devices as a new paradigm smashing some businesses and growing others into giants Their stories are here in the news In short here are predictions for what won t and will happen in 2014 for the mobile technology industry breakdowns of marketshare figures on the horse race aspect of the business chapters on Apple Samsung Google Microsoft Nokia Blackberry Amazon Yahoo news about social media giants Facebook Twitter Google LinkedIn Foursquare SnapChat and the carriers themselves Verizon AT T Sprint and T Mobile You can also review my 2013 mobile predictions and see my track record on predictions Finally there are some essays on how all this mobile tech is figuring into our lives I ve divided the news into the subjects it covers but also put in the appendix all the news as it came out in chronological ordering You can read the firehose of events in the appendix or just read about one topic at a time in the earlier chapters Table of Contents Preface Introduction Chapter 1 2014 Predictions Chapter 2 Mobile Marketshare Chapter 3 Apple Chapter 4 Samsung Chapter 5 Google Chapter 6 Microsoft Chapter 7 Nokia Chapter 8 Blackberry Chapter 9 Amazon Chapter 10 Social Media Chapter 11 Yahoo Chapter 12 Carriers Chapter 13 2013 Predictions Chapter 14 Essays Appendix     *The 100 Best Aggressive Stocks You Can Buy 2012* Peter Sander, Scott Bobo, 2011-10-18 Now that the Dow Jones Average has climbed above 12 000 you probably feel a bit better about taking risks But where should you put your money Just how safe is aggressive investment anyway If you want to rebuild your portfolio after the losses of the past few years here s your essential guide to investing in high performance stocks The authors list detailed information on potentially top yielding stocks along with suggestions on how to balance your portfolio to minimize exposure and ensure the best possible returns Here you ll find information on how to define an aggressive stock what to watch for in financials managing risk with a tiered portfolio how to play tailwinds and the most important parts of your buying decisions Today the market is surging Investors are watching attentively ready to jump Now you can dive in on the next big thing This book will guide you safely to it     **Telecom Standards Monthly Newsletter January 2010** ,     *Eccentric Orbits* John Bloom, 2016-06-07 Good corporate drama an enlightening narrative of how new communications infrastructures often come about The Economist A Book of the Year 2016 In the early 1990s Motorola developed a revolutionary satellite system called Iridium that promised to be its crowning achievement Its constellation of 66 satellites in polar orbit was a mind boggling technical accomplishment surely the future of communication The only problem was that Iridium the company was a commercial disaster Only months after launching

service it was 11 billion in debt burning through 100 million a month and crippled by baroque rate plans and agreements that forced calls through Moscow Beijing Fucino Italy and elsewhere Bankruptcy was inevitable the largest to that point in American history And when no real buyers seemed to materialize it looked like Iridium would go down as just a science experiment That is until Dan Colussy got a wild idea Colussy a former head of Pan Am now retired and working on his golf game in Palm Beach heard about Motorola s plans to de orbit the system and decided he would buy Iridium and somehow turn around one of the biggest blunders in the history of business Impeccably researched and wonderfully told Eccentric Orbits is a rollicking unforgettable tale of technological achievement business failure the military industrial complex and one of the greatest deals of all time Deep reporting put forward with epic intentions a story that soars and jumps and dives and digresses A big gutsy exciting book The Wall Street Journal A Top 10 Nonfiction Book of 2016 Spellbinding A tireless researcher Bloom delivers a superlative history A tour de force Kirkus Reviews starred review , [Watch Everything](#) Charles A. Shaw,2013-10-28 Charles A Shaw grew up in a segregated African American neighborhood in St Louis His tight knit community supported him and he was inspired to become first a teacher and then a lawyer From there he worked his way up to federal prosecutor and state judge before President Bill Clinton appointed him to the federal bench Shaw quickly became dismayed by the inequality and severity of mandatory U S sentencing guidelines and how they affected young African American men Prosecutors opposed him at every turn as he sought to impose fair sentences but he never wavered in seeking to promote equality and curb the destruction of African American families This insightful and at times humorous narrative demonstrates Shaws love for family hard work and God Including an insiders view of an often unjust legal system tales of working alongside some of the best legal minds in the country and challenges to prevailing concepts Watch Everything offers a rare glimpse into the professional life of an unconventional federal judge
