**Low-Level Radiation and Immune System Damage** Joseph J. Mangano, 2018-01-31 Atomic weapons and nuclear power plants they promised to ensure world peace and provide efficient energy to Americans during the 1940s and 1950s Meanwhile the post war

prosperity led to the most dramatic population explosion ever witnessed in the United States the baby boomer generation Times and politics may change but many baby boomers as well as their descendants now live with an unforeseen result of the nuclear age Rates of immune related diseases have risen steadily throughout the past few decades from allergies to cancer While advances in medical care have kept death rates relatively low the increased prevalence of certain diseases cannot be ignored Low Level Radiation and Immune System Damage An Atomic Era Legacy establishes an undeniable connection between the nuclear build up of the past and the widespread health problems seen today While baby boomers were growing up in the 40s and 50s above ground atomic bomb tests and start ups of civilian nuclear power plants were carried out without fear of public exposure to radioactive emissions Although the consequences of low level radiation are still hotly debated Mangano s research findings emphasize a direct link between nuclear exposure and immune system deficiency In addition to substantial data on immune disease trends among Americans born between the mid 1940s and mid 1960s Mangano also examines similar issues concerning baby boomer children and grandchildren Health professionals environmentalists historians and students alike will find much to learn from these pages As America and the world come to terms with the post Cold War era there are still many lessons to recognize consider and learn from the still recent past Low Level Radiation and Immune System Damage An Atomic Era Legacy explores a relentless trend that will not soon be over with potential repercussions into the 21st century

*A Biologist's Guide to Artificial Intelligence* Ambreen Hamadani,Nazir A Ganai,Hamadani Henna,J Bashir,2024-02-29 A Biologist s Guide to Artificial Intelligence Building the Foundations of Artificial Intelligence and Machine Learning for Achieving Advancements in Life Sciences provides an overview of the basics of Artificial Intelligence for life science biologists In 14 chapters sections readers will find an introduction to Artificial Intelligence from a biologist s perspective including coverage of AI in precision medicine disease detection and drug development The book also gives insights into the AI techniques used in biology and the applications of AI in food and in environmental evolutionary agricultural and bioinformatic sciences Final chapters cover ethical issues surrounding AI and the impact of AI on the future This book covers an interdisciplinary area and is therefore is an important subject matter resource and reference for researchers in biology and students pursuing their degrees in all areas of Life Sciences It is also a useful title for the industry sector and computer scientists who would gain a better understanding of the needs and requirements of biological sciences and thus better tune the algorithms Helps biologists succeed in understanding the concepts of Artificial Intelligence and machine learning Equips with new data mining strategies an easy interface into the world of Artificial Intelligence Enables researchers to enhance their own sphere of researching Artificial Intelligence

FrimThom Integrated Science for Senior High Schools Thomas Kofi Arboh,Emmanuel Yaw Frimpong,2025-04-29 The diversity of teaching skills and methods as applied in the classroom mostly results in the variation in understanding on the part of the learner Not having a clear cut material for teaching also puts pressure on the teacher when it comes to gathering

information to deliver in the classroom Having a more simplified and straightforward text material without compromising on value of content is the main aim of this book Materials are well selected to make learning and teaching easier for the user of this book The senior high school student is the main targeted end user of this book However it can also serve as a reference material for other levels of learning The content is based on the Ghanaian and West African syllabus for senior high education This integrated science textbook has its content organized in sections units and academic year Year 1 content provides foundation tutoring Year 2 is built on the content of year 2 likewise year 3 has its content built on that of year 2 This approach renders a vertical upward systematic approach to learning that enables the learner to build upon previous knowledge Reference materials tables charts and units are also provided to assist the learner in doing research or performing experiments It is our hope that this textbook will satisfy teachers and learners at the senior high level of education in the area of integrated science comprising of basic biology physics chemistry agriculture and indigenous technology
