## How To Access Icloud Pages Documents On Iphone:

**My Pages, Numbers, and Keynote (for Mac and iOS)** Brad Miser, 2015-03-31 Be More Productive with Pages Numbers and Keynote Pages Numbers and Keynote are Apple's office business productivity software applications. Originally a suite of software called iWork, these apps are roughly the equivalent of Microsoft Office's Word, Excel, and PowerPoint but implemented quite differently with Apple's approach to design and functionality. Written by Apple hardware and software expert Brad Miser, *My Pages, Numbers, and Keynote* includes full-color step-by-step tasks to walk you through these key applications so you can quickly accomplish exactly what you want through word processing, spreadsheets, and presentations. The tasks include how to store your documents on the cloud so you can work with them on any device including Mac and Windows computers, iPads, and iPhones. Use templates so that creating amazing-looking documents is fast and easy. Add text to your documents by typing or dictation and then use powerful tools to format that text easily and quickly. Enhance your Pages documents by including tables, charts, photos, tables of content, headers, footers, and more. Use Numbers spreadsheets to organize, format, calculate using built-in or custom formulas, report, and present information in tables and charts. Use Keynote to build amazing presentations including text, images, charts, animation, and more. Share your documents by creating PDFs or printing them, provide digital versions of your documents to others using email, AirDrop, or messages. Collaborate with others on your documents through comments, track changes, and in real time with iCloud. Register Your Book at [quepublishing.com](http://quepublishing.com) register to 35% off coupon to be used on your next purchase and more. **COVERS iWork apps for Mac** *iWork: The Missing Manual* Jessica Thornsby, Josh Clark, 2014-03-18 Apple's iWork is more versatile than ever now that there are versions for Mac, iOS, and even iCloud. The only thing iWork doesn't include is its own how-to guide. That's where this friendly, jargon-free *Missing Manual* comes in. With complete instructions and helpful examples, you'll quickly learn how to create stunning documents, slideshows, and spreadsheets with iWork's Pages, Keynote, and Numbers. The important stuff you need to know: Create elegant files in minutes. Save tons of time by using iWork's collection of prebuilt templates and themes. Craft a variety of documents. Use Pages to design attractive newsletters, catalogs, brochures, flyers, and posters. Build eye-popping presentations. Turn Keynote's themes and easy-to-use cinematic effects into beautiful custom slideshows. Organize and clearly convey information. Jazz up your Numbers spreadsheets with charts, images, and videos. Always have your work on hand. Store your files in iCloud and have them sync automatically to your Mac and iOS devices. Work anywhere, any time. Use the web-based iWork for iCloud to create projects on any computer, even a PC.
