[Steps to a Better Life and Relationship](#) Anthony Ekanem,2016-08-03 Everyone has a legitimate desire to have a better life Having a better life could mean different things to different people What a man considers to be a better life may be different from what a woman considers to be a better Also what a young person considers a better life would be different from what an older person considers a better life For a young person in their 20s better life could mean having many materials things car house clothes money etc which they believe would make them happy For older people a better life for them would be living their dream with lots of passion lots of laughter and love which of course brings happiness to them Not a material thing in sight Even though our definition of what a better life is can change over the years the steps we take to how we can attain that better life doesn t really change As Elbert Hubbard said a sculptor creates the beautiful statue through a process of chipping away the parts of the marble that are not needed This process of elimination is what we need to take on board as we try to eliminate those things that we do which prevent us from attaining a better life for ourselves No matter your age or gender and whatever better life means to you you can attain that legitimate desire by chipping away those parts of your life that are not needed Also if you do want to create change in your life get clear on the

definition of what a better life is for YOU This will help you identify the key things that you need to STOP DOING so that you can have a better life
