*Italian Navy & Air Force Elite Units & Special Forces 1940-45* Piero Crociani, Pier Paolo Battistelli, 2013-01-20 This volume assesses the formidable Special Forces fielded by Italy's navy and air force in World War II. Italian Navy Special Forces were particularly active and respected in the Mediterranean where 10th Motor Torpedo Boat Flotilla used frogmen, two man torpedoes and explosive ram boats. The Italian Air Force formed a special commando unit ADRA before the 1943 surrender; it was tasked with attacking Allied airfields and communications in North Africa. Men from ADRA and Army paratroopers formed the new Folgore Regiment which also continued to fight alongside German forces until 1945. In both cases the pro Allied Italian forces also formed mirror units to fight alongside US and British forces including the Recce Squadron F. Featuring rare photographs and specially commissioned artwork, this book tells the story of the little known elite forces fielded by Italy's navy and air force in World War II, some of whose successors remain in service with today's Italian armed forces.

*Italian Army Elite Units & Special Forces 1940-43* Pier Paolo Battistelli, 2011-11-20 Italian military historian Pier Paolo Battistelli examines the elite and special forces units of the Italian Army during World War II. This includes a vast array of troop types including paratroopers, assault engineers, sea landing and swimmer units, long range reconnaissance and ski units, and even hand picked Fascist Mussolini units. It also delves into the specialist tank and armoured units that were created to emulate the German armoured units. While the Italian units discussed enjoyed mixed success, the volume draws attention to the incredibly hard fighting done by some in the deserts of North Africa and the frozen wastelands of Russia. Illustrated with rare archival photographs and specially commissioned artwork, this is a fascinating insight into a little studied aspect of Axis forces.
