Iveco Eurocargo Manual:

Manual del transporte de mercancías Jaime Mira ,David Soler ,2024-02-12 Este manual reúne los conocimientos fundamentales que deben poseer las personas que gestionan la logística o el transporte de mercancías en una organización. Los autores realizan un recorrido que se inicia con la configuración de la mercancía en unidades de carga la tipología de las cargas y su agrupación en palets y contenedores. Desde ahí se abordan las figuras profesionales que intervienen en el proceso de transporte la descripción de cada uno de los modos de transporte y los aspectos técnicos de los vehículos que así como de los medios mecánicos para la manipulación de las mercancías. La gestión del transporte nacional o internacional también requiere de soportes documentales normativas legales elementos que aporten seguridad sistemas de planificación e indicadores de la calidad conceptos todos ellos que se tratan en apartados específicos. Por último se dedica un amplio espacio a las infraestructuras logísticas su planificación y modelos de gestión.

Fire Engines Eddie Baker,2018-08-23 More complex and imposing than any other vehicle in the British emergency services the fire engine has a long and interesting history. The earliest water pumps had been developed by the eighteenth century basic manual pumps that had to be hauled around by people or horses and were often only used on fire insured premises. In the nineteenth and twentieth centuries horse drawn steam powered fire engines and eventually motorised fire engines came to revolutionise firefighting offering far greater versatility and the brigades came to be run by the municipalities. In this beautifully illustrated introduction Eddie Baker charts the history of fire engines and their variants and the increasingly complex equipment they have carried such as high rise ladders and high pressure hoses. He also explains the wider history of the fire service and how the engines have been shaped by its needs and most importantly those of the firefighters themselves.

Motor Industry Magazine ,2005-02

Alforja ,2006-02-28 Un completo análisis de los sectores de la distribución y producción de gran consumo. Estudio de los sectores alimentarios y de sus canales de distribución: hipermercados, supermercados, discount, cash carries.
